HILLCREST SCOTS CELEBRATE BURNS' ANNIVERSARY

A most enjoyable time was had at Hillcrest on Friday night last, when memory of the immortal Bobby Burns was celebrated in the Union hall under the auspices of the Hillcrest Caledonian Society.

At 7 p.m., upwards of one hundred and fifty persons sat to a sumptuous repast, the crowning item on the menu being the haggis.

At the speaker's table, the featured item of "The Haggis" was fittingly heralded by the accompaniment of "Scotty" Penman with the bagpipes. W. Stevenson acted ably in capacity of chairman and the many toasts were ably proposed and responded to. The speakers included Chairman Stevenson, Mr. John Kerr, Mr. W. Hutchison, Dr. H. Blair Rose, Rev. Father Donovan, Rev. John Wood and George E. Cruickshank, M.L.A.

Vocal selections by Rev. Larkie, of Coleman; Miss Audrey Martin, Mrs. Davis and Mr. Thomas, of Hillcrest, were well received, as also two readings by Mrs. Holmes, of Coleman.

A special attraction was offered by Miss Tina Thompson and her talented class of dancers from Fernie. Miss Thompson is ever popular, and on this occasion won the applause of all for her Scotch, Irish and arabic dances, accompanied by accordion and bagpipes.

Following the concert programme, dancing was indulged in till high four in the morning.

ELKS INSTALL OFFICERS

The 1931 officers of Blaimore Lodge of Elks were installed by District Deputy Foreman at a largely attended meeting last night at the following: Installed: P. R. K. — A. Thompson, Exalted Ruler — W. W. Scott.

Ext. Leading Knight — H. O. Westrup.

Ext. Loyal Knight — G. McLean.

Ext. Lecturing Knight — H. Giesbach.

Esquire — T. Vejprava.

Secretary — J. R. McLeod.

Treasurer — J. V. McDougall.

Trustee for three years — J. E. Gillis, P.E.R.

I.G. — D. Kemp.

O.G. — W. Howie.

A number of members of Pincher Creek Lodge were present.

Following the meeting, refreshments were served.

BELLEVUE ODDFELLOWS INSTALL OFFICERS

The officers of Bellevue Lodge No. 118 were installed on Monday night of last week by Alex. Morency, district deputy, and staff of Blaimore past grands, as follows:

N.G. — Joe Shevels.

V.G. — B. Shevels.

Rec. Sec. — J. Cousins.

Fin. Sec. — H. Harrison.

Treasurer — F. Padgett.

Warden — W. Cox.

Conductor — B. Burton.

Chaplain — D. Owen.

R.S.S. — N. Spooner.

L.S.S. — G. Chiarovano.

R.S.N.G. — Steve Berry.

L.S.N.G. — A. Iorio.

Inside G. — J. Dawson.

Outside G. — M. Parker.

R.S.V.G. — J. Shevels.

L.S.V.G. — D. Morris.

R. B. Morden, grand master, was in attendance, accompanied by his son from Lethbridge.

After the ceremony, the Rebekahs were invited to a supper, when toasts to the ladies and gentlemen were in order. After supper, dancing was indulged in.

A man who gave \$100 a week toward the church is charged with defrauding his creditors. The church got the cash, he got the credit and they will have to accept a compromise.

ANNUAL MEETINGS OF RATEPAYERS

The annual meetings of ratepayers of the town of Blaimore and Blaimore School District 628 will be held tomorrow night, at the school house.

Auditor's reports and financial and general statements covering the year 1930 will be read and discussed.

Nominations to fill vacancies on the council and school board will take place on Monday next and elections the following Monday.

We understand there are four vacancies to fill on the council and two on the board of School Trustees. The terms of Mayor Farmer, Councilors Sartoris, McVey and Kubik, and board members Chappell and Tompkins expire.

INSTITUTE PUBLIC LIBRARY

The additions to the Library this week are all fiction. Spend a few pleasant hours with these volumes.

"The Law of the Four Just Men," by E. Wallace; "New Chronicles of Rebecca," by Kate Douglas Wiggin;

"Thuvia, Maid of Mars," by Edgar Rice Burroughs; "The Crippled Lady of Peribonka," by Oppenheim;

"Money to Burn," by Peter B. Kyne; "Bradleys the Magnificent," by Rafael Sabatini; "The Bishop Murder Case," by S. S. Van Dine.

Library hours: Tuesdays and Saturdays from 7 to 9 p.m. Membership for the year is \$1.00.

C. N. PASS CRICKET LEAGUE

At a meeting of the Crows' Nest Pass (Alberta) Cricket League, held at the residence of John Dudley, Hillcrest, on Friday last, there were present: John Dudley, Hillcrest, president; Harry Black, Blaimore, vice-president; E. A. Boyle, Blaimore, secretary-treasurer, and W. Patterson and T. Hadwell, Blaimore, and A. Marks, Hillcrest.

Ways and means for raising funds to carry on the programme of the club were discussed. Towns covered by the league are: Blaimore, Coleman, Bellevue, Hillcrest and Pincher Creek.

FORMER FRANKIE IS GIVEN IMPORTANT POSITION

During the week, announcement has been made of the election of Mr. Paul H. Duhar, C.L.L., to the position of president of the Life Underwriters' Association of Canada, with head office in Quebec city.

Mr. Duhar is manager of the Imperial Life Assurance Company at Quebec. He will be remembered by all old-timers of the Crows' Nest Pass, having been for a number of years in the early days manager for the Frank Wine & Spirit Company at Frank, which institution operated in the building now being occupied by the Frank public school.

BIRTHDAY PARTY AT FRANK

A delightful surprise was handed out to Joan Linn, of Frank, on Monday night, when twenty-six boys and girls arrived at her home to hold a surprise party in honor of her fourteenth birthday. Everyone got busy and in a very short time had the tables groaning with good things to eat. After supper, games were started and were kept going with a lively swing till nearly midnight, when all voted that they had had a lovely time. Those present were:

Francis Linville, Meta Sherring, Bella Kroll, Rosie Bachura, Rita Reizae, Margaret Murray, Beth Murray, Renee Pirlot, Lorraine Pirlot, Rosie Cerny, Mary Donkin, Elizabeth Kotas, Irma Zucka, Frank Katcher, Dan Kroll, Frank Tide, James Kotas, Robert Smith, Clarence Smith, Yarmel Smith, Wm. Sherring, Jerry Zamek, Jim Svoboda, Henry Novotny, Benny Novotny, Bahous Bachura, Andrew Linn.

MODERATION IS ADVICE GIVEN BY BROWNLEE

Calgary, Alta.—Warning against hasty steps to embrace socialism, secession, or currency alteration, was delivered by Premier J. E. Brownlee to United Farmers of Alberta in annual session. The U.F.A. party leader counseled ample deliberation of any steps urged by radical forces rising out of unrest, and a revival of "the old crusading spirit" of the farmer.

"Governments in Canada cannot allow agriculture to be destroyed," reminded Mr. Brownlee. "Canada cannot live unless agriculture does." He advised agrarians, however, to "consider whether it is worth while to continue farming, and how." It requires only a small reduction of acreage and a correspondingly small increase of world consumption to wipe out the bugbear of overproduction, he said.

"What about secession?" asked the premier. "The difficulty in the West is that we have too much wheat. Would you sell it under secession? Where? And what would you sell it for?" He stated that in parts of the province propagandists are urging all the good things in the Russian system, and he questioned that their advice should be followed. He told his audience they could have in Alberta anything that was had in Russia if they deemed it best, "by the simple expedient of your votes."

"Don't think that by some change in Canada's financial policy—surely—we can in one year pass from bad times to good times," warned Mr. Brownlee. He did not wish to suggest that he was satisfied with the Canadian financial system, he said, and was "quite sure that those who are in a position to be trustees for depositors are the best to handle credit."

Creditors pressing for collection would be one of the country's most acute problems if Canada should have 70 to 75-cent wheat next year, Mr. Brownlee believed. He foresaw the need for organized effort to solve this difficulty and to work out a scheme regarding tax arrears to keep farmers on the land.

The government of Alberta is apprehensive of a crash in livestock prices next year, Mr. Brownlee said. He followed efforts toward mixed farming. Mr. Brownlee averred. He mentioned that he had immediately offered co-operation with the plan of F. W. Beatty, K.C., for a loan fund for aiding livestock purchase, though he did not agree with some aspects of the plan.

If the prairie premier's proposal for a fixed price for wheat failed to prevent loss, he did not large enough to increase production, had been accepted by the Dominion government, Mr. Brownlee believed, agriculture would have been saved at a cost probably not larger than that incurred by farmers already authorized for relief.

Would Ban Beer Parlors

U.F.A. Want All Beer Parlors Abolished in Alberta

Calgary, Alta.—Immediate action to abolish Alberta beer parlors, either by legislation or by plebiscite, was urged in a resolution passed at the annual convention of United Farmers of Alberta. Both the U.F.A. and the women's section of the organization had previously condemned beer parlors and sought a plebiscite.

The stand of the convention endorsed the request of the Alberta Prohibition Association for abolition of beer parlors, and labelled beer halls as a menace to the social and economic life of the province. "The time has come," stated Norman Priestley, newly elected U.F.A. vice-president, "to strike another body blow at this traffic."

Planetoid Approaches Earth

Toronto, Ont.—Eros, a planetoid which comes near the earth approximately every 30 years, is due to make its second appearance, since its discovery in 1898, on the 29th or 30th of this month. Its visit will afford one of the most outstanding opportunities for astronomical research that has occurred since the beginning of the century. Prof. H. R. Kingston, head of the department of mathematics and astronomy, Western University, says.

Sentenced By Court Martial

Devonport, England.—A naval court martial sentenced Able Seaman Benjamin Towl to six months' hard labor and dishonorable discharge from the service in connection with the short-lived trouble about the submarine depot ship "Lucia" recently. He was the second enlisted man to be tried. Thirty men were involved.

W. N. U. 1974

Special Flag May Be Used

Rumor Says New Governor-General Will Fly Own Flag

Ottawa, Ont.—While official announcement is lacking, it is rumored here that with the approval of the King the next Governor-General of Canada will fly his own flag, as personal representative of His Majesty. At present the only flag officially recognized in Canada is the Union Jack.

Cape Town, South Africa.—South Africa already flies its own national flag alongside the Union Jack, and now the governor-general is to have his own flag as the personal representative of His Majesty.

The new governor-general is the Earl of Clarendon, and his flag will consist of a blue ground on which is the royal crest in gold, with the words "Union of South Africa" above the crest and the same words in Dutch below it.

His Majesty has given approval for the use of the flag.

CANADA WHEAT SURPLUS DATA IS REVEALED

Ottawa, Ont.—Wheat surpluses in exporting countries of the world are reviewed in a statement handed out by the Dominion Bureau of Statistics recently. Canada's surplus is given at 253,000,000 bushels. Of this, the largest surplus is in the United States, which has a surplus of 1,157,400,000 bushels.

The figures given reflect the situation during the month of December as far as foreign statistics are concerned, while the situation in Canada is covered up to the middle of January.

"Surveying world situation from a Canadian viewpoint, no marked increase in demand is visible," the review states. "European countries, apart from France, will not increase their imports to any great extent. It will be remembered, however, that France has undertaken that between seven and nine million bushels of wheat will be imported during the season. From August 1 to December 31, the Canadian exports to France amounted to 3,739,877 bushels.

"Germany's policy with regard to imports of foreign wheat is identical with that of France, the endeavor being to force consumption of rye as bread and as a mixture with wheat. The net result in these two countries is that native wheat is selling at prices from \$1.37 to \$1.57 per bushel, while good North American wheat is sold in America at the very low price of 65 to 70 cents per bushel."

It is stated in the review that the Argentine surplus will have to be disposed of as soon as possible, account of inadequate storage facilities. At the present time, inclement weather in the Argentine is hindering large exports and also deteriorating qualities. Inadequate storage facilities are also the case in Australia, which will result in the country selling in the open world market. Australia, however, is also experiencing inclement weather. With respect to Australia, a new outlet has been found in India which is taking large imports from the Antipodes.

With respect to the United States it is stated that that country is not at present a competitor in world markets in spite of large wheat stocks. Russia has forwarded 72,208,000 bushels through Black Sea ports since August 1, but recent export shipments have fallen off. It is foreseen, however, that increased shipments will be forthcoming during the winter.

Non-European countries are expanding their wheat imports, according to the review and continued dry weather in India should mean a better demand for wheat in these countries. The Orient is looked upon as an outlet for Canadian wheat.

The opinion is expressed that with seven months of the crop year remaining, the surplus of 253,000,000 bushels in Canada is not unreasonably high. Attention is drawn to the fact that the five year average export for the seven months ending July 31, was 141,115,554 bushels or 20,109,365 bushels per month. There has been a continued improvement in the exports of wheat and wheat flour during the first five months of the crop year.

Two-thirds of the railways in Switzerland have been electrified.

No Official Calls In Cuba

Change Necessary In Program For Prince Of Wales

Havana.—The Prince of Wales and Prince George, who are making an 18,000-mile tour of Spanish America in behalf of British trade, will not leave their ship when it reaches Havana, January 31.

The British legation has informed President Machado that because of the shortness of time available here and the court mourning for Finesse Louie, a change in program had been necessitated which would prevent their paying any official calls in Cuba.

Despatches from their ship, the "Oropesa," which left Vigo, Spain, yesterday morning, say the prince is enjoying their trip and participating in the ship life with other passengers. The "Oropesa's" first stop is at Hamilton, Bermuda.

To Protect Dairy Industry

Empire Council To Be Formed With Headquarters In London, England

London, England.—An empire dairy council with headquarters in London, England, will be formed according to a decision made by the Royal Empire Society.

The main objects of the council will be to co-ordinate the interests of the dairy industry throughout the empire, to take steps to protect the home and overseas empire producers from unfair foreign competition and to deal with immediate and urgent questions affecting butter and cheese.

U. F. A. OFFERS PLAN TO ASSIST THE PRODUCER

Calgary, Alberta.—Request that Canada's government take over the 1930 wheat crop, paying producers in wheat certificates, was entered at the annual convention of United Farmers of Alberta. The certificates, it was proposed, would be redeemable in wheat and receivable in payment of taxes.

Payment in certificates of a price to producers approximately cost of production, was advised in the resolution advanced by George Bevington, of Wintereburg, agrarian authority on finance. Actually, explained Mr. Bevington, the wheat certificates would be read "trade dollars," not necessarily based for redemption on wheat, but good outside Canada for any commodity produced in the Dominion.

William Irvine, M.P. for Wetsaskiwin, associated himself with Mr. Bevington in the resolution, which was approved unanimously by the delegates representing more than 15,000 Alberta farmers. Other important resolutions sought an early parity of wheat exporting countries to seek stabilized wheat production and export prices, and a packers' and livestock men's meet to gain an agreement with Britain for regular monthly minimum shipment of livestock and dairy products.

The proposals were contained in a long memorandum from the U.F.A. board of directors entirely agreed to by a full day of debate. The document, as supported by the convention, asked tax and interest reduction, farm income credit reform, market extension and tariff revision.

WILL VISIT OTTAWA

Photograph above shows Miss Joan Pearson (left), and her cousin, Nancy Pearson, well known beauties of English society, who will pay a visit to Ottawa during present world tour. Attended by their grandmother, Viscountess Cowdray, they recently visited Los Angeles and will include New Orleans and Palm Beach in their travels.

MAY COME TO CANADA

Earl of Cromer, who, as Lord Chamberlain, named Marc Connelly's play, "The Green Pastures," from English stage, is being persistently mentioned as possible successor to Lord Willingdon as governor-general of Canada.

British Policy In India

People Of India Disposed To Judge New Constitution On Merits

Calcutta, India.—Referring to Prime Minister Ramsay MacDonald's statement at the close of the Indian Conference in London, England, the newspaper "Liberty," which represents some sections of the Nationalist Congress, admitted there were passages which revealed the anxiety of the British government to introduce some elements of popular responsibility in the Indian administration.

The newspaper, of which Subhas Chandra Bose, mayor of Calcutta, and president of the Bengal Congress, is a director, said, however, that the people would judge any new constitution by the ordinary test of how far it would ensure responsibility in practice, taking into account the proposed reservations.

Subhas Chandra Bose is at present serving a prison sentence for his activities on behalf of the Nationalists.

Russian Wheat Imports

British Government Holding An Investigation On Question of Russian Wheat Imports

London, England.—Amid the echoes of age-old religious controversies—struck from beneath their own ranks divided—the MacDonald Government was defeated in the House of Commons by a vote of 282 to 249. As the position of the tellers at the clerk's table told the story of the reversal of a clause of the Education Bill the House was plunged into a commotion with the Conservatives shouting: "Resign, resign."

But although the defeat came in the report stage of its own education bill there was no question of a government resignation. Prime Minister Ramsay MacDonald held the vote did not involve a question of principle. The government would, he said, accept the decision of the House and would proceed with the bill.

At this juncture, Rt. Hon. Winston Churchill, who is sometimes termed the Arch-Conservative, arose to proclaim in scornful accents that Mr. MacDonald was "the greatest living master of falling without hurting himself." The government had been defeated by more than 30 votes yet the prime minister said Mr. Churchill had airily announced he intended to go ahead as though nothing had happened.

The Conservatives then attempted to press their advantage by moving the adjournment of the House. But here the Laborites who voted against the government on the education clause intimated that, were the motion pressed, they would again give the government their support.

Thereupon the motion to adjourn was dropped and the House proceeded with the bill. A few hours later the amended bill was passed by a vote of 256 against 238, and now it goes on to the House of Lords.

The defeat of the government came on an amendment moved by John Scurr, Roman Catholic Laborite from Mile End.

The English elementary schools are administered under the dual system of state-owned, or provided schools, and religious, or non-provided schools. The religious schools constitute about two-fifths of the whole and are, in the main, owned by the Church of England. The Roman Catholic schools come next in number.

All the schools are state-supported but in cases the non-provided schools, the buildings and property of a religious community are concerned.

Hail Insurance Losses Heavier Last Year

Report States Many Companies In Alberta Forced To Withdraw

Toronto, Ont.—Canadian hail insurance losses were heavier last year than in 1929, but not so heavy as in 1927 and 1928, it was stated here by delegates to the Canadian Hail Insurance Companies' convention.

Several losses in Alberta had caused the withdrawal of many companies from Alberta, delegates said, and unless certain legislation sought by the companies was enacted, many more Alberta companies would be forced to withdraw.

Building New Roads

United States To Spend Huge Sum This Year On Extensive Program

New York.—New roads long enough to circle the globe will be built in the United States by the straining muscle of some 300,000 workmen this year at a cost not far short of a billion dollars.

Upwards of 9,000 miles of the approximately 25,000-mile total will be hard surface. This is exclusive of 11 states in which highway commissioners could make no mileage estimates.

Winnipeg May Have More Representatives

Increase Of Two Seats In Provincial House Contemplated

Winnipeg, Man.—Increase in Winnipeg's representation in the provincial government to 12 seats is contemplated by the Bracken administration, it has been learned in authoritative circles. At present the city has ten seats in the legislature on a basis of proportional representation. The government, it is stated, plans to bring the suburbs of St. James and Kildonan within the city representation, adding two seats.

ADVERSE VOTE DOES NOT END LABOR PARTY

London, England.—Amid the echoes of age-old religious controversies—struck from beneath their own ranks divided—the MacDonald Government was defeated in the House of Commons by a vote of 282 to 249. As the position of the tellers at the clerk's table told the story of the reversal of a clause of the Education Bill the House was plunged into a commotion with the Conservatives shouting: "Resign, resign."

But although the defeat came in the report stage of its own education bill there was no question of a government resignation. Prime Minister Ramsay MacDonald held the vote did not involve a question of principle. The government would, he said, accept the decision of the House and would proceed with the bill.

At this juncture, Rt. Hon. Winston Churchill, who is sometimes termed the Arch-Conservative, arose to proclaim in scornful accents that Mr. MacDonald was "the greatest living master of falling without hurting himself." The government had been defeated by more than 30 votes yet the prime minister said Mr. Churchill had airily announced he intended to go ahead as though nothing had happened.

The Conservatives then attempted to press their advantage by moving the adjournment of the House. But here the Laborites who voted against the government on the education clause intimated that, were the motion pressed, they would again give the government their support.

Thereupon the motion to adjourn was dropped and the House proceeded with the bill. A few hours later the amended bill was passed by a vote of 256 against 238, and now it goes on to the House of Lords.

The defeat of the government came on an amendment moved by John Scurr, Roman Catholic Laborite from Mile End.

The English elementary schools are administered under the dual system of state-owned, or provided schools, and religious, or non-provided schools. The religious schools constitute about two-fifths of the whole and are, in the main, owned by the Church of England. The Roman Catholic schools come next in number.

FRENCH CABINET RESIGNS OVER WHEAT PRICES

Paris, France.—The French Chamber of Deputies withdrew the government of Premier Theodore Steeg, thereby serving notice that France is not going to pay \$2 a bushel for wheat when it is selling for 80 cents in Chicago and around 90 in Winnipeg.

The cabinet fell by a vote of 293 against 283, after an existence of five and one-half weeks, and straightway prepared its resignation for submission to President Gaston Doumergue.

A government plan to stabilize the price of wheat at \$2 a bushel started the fireworks. When the opposition began gunning for Victor Boret, the minister of agriculture, Premier Steeg staked the life of his entire government in defense and lost by the narrow margin of ten ballots after scenes which were tumultuous even for the French chamber.

The climax came with a vivid talk by Pierre Etienne Flandin, who was minister of commerce in the former government of Andre Tardieu.

Flandin painted a dramatic picture of the high price of wheat and bread in Paris, while the commodity is practically going begging in Canada and the United States. This appeared to make a deep impression on the deputies representing cities, so the government which began on December 13 was knocked out on January 22.

The attack was principally against M. Boret, who as minister of agriculture is responsible for the price fixing plan.

Boret offered to leave the cabinet if that would help matters. But the group finally decided to face the impasse as a whole and the premier's show of fight astounded parliament, for he was regarded the mildest of politicians.

In Steeg's tenure of a little over a month he received only one vote of confidence to ratify his resignation on December 19, when he made his ministerial declaration.

Realism Causes Riot

Locomotive On Movie Screen Stampeded Villagers

Georgetown, Guyana.—The introduction of motion pictures into this village caused a stampede in which 12 persons were trampled, some of them being seriously injured.

A peasant audience, no member of which ever had seen a movie before, was assembled in the hall to view a cinematic thriller, and suddenly the scene flashed to a locomotive roaring straight down the track.

The engine appeared to rush out from the screen into the hall and the sight of this giant monster seemingly coming to run the house was too much for the spectators. They all made a wild rush for the door and in the ensuing frenzy all fittings of the building were wrecked.

Canadian Trade Decreased

Unfavorable Balance Shows For Twelve Months Ending December, 1930

Ottawa, Ont.—Canada had an unfavorable balance of trade of \$103,109,126 for the twelve months ending December 31, 1930, according to figures compiled by the Dominion Bureau of Statistics.

There was a falling off in both exports and imports during 1930 as compared with 1929. Imports amounted to \$1,008,479,472, compared with \$1,208,992,692 in 1929. Exports of Canadian goods amounted to \$885,906,366 as compared with \$1,182,412,313 in 1929, and exports of foreign goods to \$19,463,967 compared with \$25,925,117 in 1929.

World's Poultry Congress

Ottawa, Ont.—Word has just been received here of the appointment of F. C. Elder, Dominion poultry husbandman and past president of the World's Poultry Science Association, as a member of the executive named by the government of Italy to carry out arrangements for the fifth world's poultry congress which is to be held in Rome in 1933.

Report Cromer Refuses Post

London, England.—It was reported unofficially that the Earl of Cromer, Rowland Thomas Earing, had been offered and had refused to accept the governor-generalship of Canada. The report was apparently from a reliable source. Lord Cromer has been Lord Chamberlain since 1922.

No Official Date

Ottawa, Ont.—Rumors in the capital are that parliament will open on December 14, but no official announcement has been made.

THE BLAIRMORE ENTERPRISE

THESE RADIO PROGRAMMES

(With apologies to the Cardston News.)

"I tuned in, getting three stations on the same wave length. One had a minister, one had a man telling conditions of the roads and the third a lecturer on poultry. This is what came in:

"The old Testament tells us that the baby chick should develop one west of Watts and listen to the words of the prophet. Be careful in the selection of your eggs, you'll find gravel surfaced roads on the Calgary highway. We find in Genesis that the roads are muddy just west of the hen house and clean straw essential. If you wish to save your soul after passing through Richdale turn south to Youngstown. Three wise men bought a large incubator but on account of bad detours the baby chicks were troubled with pip and the bond issue is talked in the Holy City. Keep the feet dry and live a life of righteousness and turn south one mile west of the school house. Much care should be used in commanding the sun to stand still as there is a wash out on the bridge just south of Champion and the road to salvation is under repairs, making it necessary for 70 degrees in broad house at all times. After you leave Calgary, unless you do all these things, the pin feathers will fall out and detour one mile south. Many are celled but few have any luck unless the gravelled road between Drumheller and the big hill is mired with feed. Out of 500 eggs one should get good roads from Hanna to Drumheller, and he commanded Noah to build an ark just one mile west of the Lockwood flat. It rained forty days and forty nights and caused an eight mile detour just west of the brooder. Many tourists from the House of David are trying Plymouth Rocks mixed with concrete and desire to do right. Despite the above account many people enjoyed the wonderful radio programmes given during Christmas week."

Robert Gardiner, M. P. for Acadia, has been chosen to succeed Henry Wise Wood as president of the United Farmers of Alberta. Norman Priestly, of Coaldale, succeeds H. E. G. H. Schofield as vice-president.

Blairmore basketball enthusiasts had the opportunity on Saturday night last of seeing the Alberta male champions in action here against the Pincher Creek aggregation. The game was very well contested and the Pincher boys succeeded in running up a score of 29 to 51 against a team that has held the provincial amateur or district championship for years. The opera house that was (now the Columbus Club) proved most suitable for the game, allowing full regulation space between the baskets.

Quarters for 200 jobless and homeless men are being made available in the Fisher Body plant at Detroit through an offer made by Fred Charles T. Alfred J. William A. Edward P. Lawrence P. and Howard Fisher, owners of the large vehicle body concern. The Fisher brothers have offered the use of their building rent free and will heat and light the plant and provide sanitary facilities at their own expense. Supervision of the quarters will be conducted by the Salvation Army, which organization will provide breakfast for the lodgers every day. Twenty-five hundred cots and bedding will be bought immediately.

THE PASS SIXTEEN YEARS AGO

(The Blairmore Enterprise, 1915)

Feb. 6.—At the annual meeting of ratemakers at Frank on Monday night, J. H. Farmer was appointed secretary-treasurer for the year 1915.

J. A. Barbour, formerly of the Taber hockey team, has accepted a position with the Blairmore Pharmacy.

T. Ede, our pioneer lawyer, does not want the people of The Pass to think that he should retire after having been practicing his profession for only thirty-seven years.

Feb. 13.—At the meeting of the town council on Monday night the following motion was passed: That as the finances of the town are such that strict economy must be exercised in every branch of its expenditures, the school board be asked to cooperate with the council in curtailing expenses; and that they be asked to readjust their staff, salaries, etc., until such time as the financial and industrial stringency is relieved.

The building now being occupied as a skating arena at Frank, cost upwards of one million dollars, and is believed to be the largest and most costly in the world.

Over seventy per cent of the English-speaking population of Bellevue have enlisted for overseas service.

In some of the dry towns in Nova Scotia, whiskey is being sold in containers labelled Mianard's liniment cod liver oil, machine oil, Worcester sauce and what not. In Alberta, whiskey is whiskey and does not require false labels.

Judges McNeill, of Macleod; Lees of Red Deer; Winter, of Medicine Hat, and Carpenter, have been appointed masters in chambers of the Supreme Court of Alberta.

Feb. 20.—A sum of approximately \$250,000 is to be disbursed by the Alberta Workmen's Compensation Board to dependents of miners who lost their lives in the recent disaster at Hilerest.

An average price of \$137 per head has been paid for the 413 horses bought in Alberta this month for the British army.

Frank and Pincher Creek hockey teams played to a 3-3 draw at Frank on Wednesday night. Following were the teams: Pincher—Baker, Lynch, Lavasseur, Marcellus, Dobbie and Pelletier. Frank—Sutherland, Boyd, Scott, Barbour, Thomas and Boyes. Harry Benson refereed.

The stork visited the home of Mr. and Mrs. Fred Tustian at Cowley during the week, leaving them a daughter.

Mat. Murphy, of Cowley, is attending the Oddfellows' convention at Edmonton. Heri Barbas and Tom Burnett, of Bellevue; McKen Hunter and Mrs. H. Smith, of Coleman, and Fred Doult, of Blairmore, are also in attendance.

W. Joyce, of the West Canadian Collieries' office staff, has accepted the position of secretary-treasurer of the town of Blairmore.

Times are not so bad, after all, for we were able last month to let a contract for the annual wash of our ice towel.

Dr. A. H. Baker, formerly associated with Dr. MacKay here, was taken ill at Rochester, and has been sent to the Adirondack Mountains to rest up.

Robins appeared in large numbers here this week.

City and county grader operations will be demonstrated at Lethbridge by movies on February the 12th and 13th. Building costs or moving materials are a major item of expense in most industrial organizations. This industrial film will show how some of the largest companies in America are using tractors to move material, switch back railway cars, haul tools, clear snow and twist in and out of narrow quarters to cut handling costs and earn a profit for stockholders.

Local and General Items

VALENTINE TEA—Feb. 14th, Moose hall, 3 to 6 p.m., held by Servian Group.

Mrs. Frank Nemrava, of Canal Flats, is in town this week visiting with parents and relatives.

The marriage took place on Monday of Clement George to Miss Katherine Podgornik, both of Hilerest. The ceremony was performed at Cowley.

Wilfred Eggleston, of Toronto, once time teacher on the staff of the Bellevue school, was a recent visitor at Bellevue with his wife's parents, Mr. and Mrs. Raskevitch.

The Rank of Knight was conferred on a class of candidates at the regular convention of Livingstone Lodge Knights of Pythias on Friday night last.

Mrs. Freeman Lank, formerly of Blairmore, has been installed as vice-grand of the Triple Link Lodge at Bass River, Nova Scotia. Miss Blanche Fulton is the new noble grand.

An exchange asks: What's the use of saying that a red head is more experimental than a blonde or brunette, when one year a girl is a blonde, the next a brunette and the next a red head.

Mr. and Mrs. J. Hoggan, of Bellevue, will celebrate their golden wedding in the Oddfellows' hall on the night of Friday, February the twenty-seventh, for which a large number of invitations have been issued.

A number of Newfoundlanders and other Swedes enjoyed a real feed of boiled and fried salt herring on Sunday afternoon last. Steamed potatoes comprised the desert end of the menu, with a washdown of coffee at the Stockholm.

James M. Cool, mayor of Crow's Nest, was a visitor to Blairmore on Thursday and lunched to the extent of a pint of ginger ale. Jim says that the country between Alberta and British Columbia has gone considerably drier than the United States.

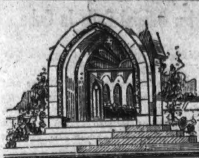

Most fitting was the programme enjoyed by Blairmoreites on Saturday morning last, when the sparrows were fitting and chirruping as though in midsummer, robins were singing, and the radio broadcasted "It's Spring-time in The Rockies." Who wants California, eh?

Frank Archibald, M.L.A. for Harbor Grace constituency in Newfoundland, has been found guilty of manslaughter in connection with the death of Chesley Russell, who was struck by Archibald's car on October 27th last, resulting in Russell's death. Archibald was sentenced to twelve months' imprisonment.

At the annual meeting of the congregation of the Blairmore United church, held last week, most encouraging reports were received from all departments. In spite of the general depression, the church has maintained its self-supporting objective, and all departments are progressing favorably.

Would that anyone in the whole world could have suffered so much from the existence and evils of the beer parlor as Mrs. L. McKinney, of Alberta; Rev. Ben Spence, of the United States, and others. Now, let the average person consider just from what real experience these imposters upon a listening public are speaking.

Donald McFarlan left by Monday morning's train for New Westminster, where we understand he has secured a position and where his wife and one daughter now reside. Prior to leaving here, Donald was presented with a cheque for \$50 from the Local Union, and on behalf of the local Vets' Club with a purse containing around twenty-five dollars, as a token of the esteem in which he is held by the members of the club and other friends.

BLAIRMORE UNITED CHURCH
Rev. J. W. Smith, B.D., Pastor

Serve the church that the church may serve you.

Services Sunday, February 1st, the pastor in charge.

11 a.m.—SENIOR SCHOOL.
2 p.m.—JUNIOR SCHOOL.
7.30 p.m.—PUBLIC WORSHIP.
Monthly service of the Y. P. Society.

ST. LUKE'S, BLAIRMORE

Services for Sunday, February 1st: 10 a.m.—Sunday School.
11 a.m.—Morning Service.

The A.Y.P.A. will meet at Coleman on Friday night, February 6th, at 7.30 o'clock.

VINY CHAPTER, O.E.S.
OFFICERS FOR YEAR 1931

The officers of Vinyl Chapter, O.E.S., were installed at their regular meeting in Blairmore on January the 19th, by Mrs. R. Rees and Mrs. A. Davis, as follows:

Worthy Matron—Mrs. K. Murray.
Worthy Patron—Mr. A. E. Ferguson.

Associate Matron—Mrs. M. Grant.

Associate Patron—Mr. W. Lord.
Secretary—Mrs. L. Hewitt.
Treasurer—Mrs. K. Turner.
Conductress—Mrs. E. Moore.
Associate Conductress—Mrs. I. A. M. Dankin.

Chaplain—Mrs. J. Pinkney.
Marshal—Mrs. E. Comfort.
Organist—Mrs. G. E. Bannan.
Adah—Mrs. B. Campbell.
Ruth—Mrs. M. Campbell.
Eather—Mrs. M. Johnson.
Martha—Mrs. B. Harper.
Electa—Mrs. M. McPherson.
Warder—Mrs. M. Morgan.
Sentinel—Mr. W. H. Chappell.

Jim Nastasi, for many years operating a bakery in Blairmore, together with his family moved to Creston the early part of the week, where they will reside in future.

To Bring Bermuda Next Door

Already the winter playground of many Canadians, Bermuda will be brought even closer to Canada by the inauguration, January 1st, of a weekly sailing from New York by the Canadian Pacific liner Duchess of York.

The island—or, to be correct—the 365 coral islands that form Bermuda in addition to being the closest summer-weather resort to Canada is famous for miles, golf and bathing.

Canadian professionals from Toronto and Hamilton are familiar faces on two of the many fine courses of which Bermuda boasts, and excellent bathing both on beaches and in open-air sea-water pools is a feature.

Pictured above are: (1) Captain R. N. Stuart, V.C., D.S.O., commander of the Duchess of York. (2) Coral rock formation on the coast showing the Duchess of Bedford en route to the West Indies. (3) The open-air swimming pool, which is a feature of the Hotel Hamilton, Bermuda's largest hotel. (4) One of the many coves.

BRITISH FILM GUILD IS FORMED IN CANADA

Toronto, Ont.—Announcement was made recently of the organization of the British Film Guild in Canada, an independent organization of Canadian theatre-goers, interested in seeing British and Canadian pictures in Canadian theatres. The Guild has an initial membership of 150 people and is now conducting a mail poll for the election of officers.

Believing the vagueness surrounding specific activities of British studios, the personalities of stars and directors, what British films are currently available for Canadian showings and how they appeal to Canadian tastes, to be one of the major handicaps to British film progress in Canada, the Guild hopes to act as a clearing house for information, the announcement said.

Its apolitical will, previewing incoming British films and send frank comments to the membership at large.

Members as a whole will report on British films they see and a summer symposium of Canadian opinion will be sent to the British producer for his information as an indication of Canadians' film entertainment. Statistics on British films will be compiled with a notation of where they were shown, audience reactions and degree of box office success in each case. Co-operation of British producers in such things as arranging previews has, it stated, been obtained.

Decision On Freight Rates Re-Affirmed

Railway Board Explains Method Of Computing Reduction In Maritime

Ottawa, Ont.—A re-affirmation of their former decision as to the correct method of computing how the 20 per cent. cut in maritime freight rates should be arrived at is contained in a judgment of the board of railway commissioners, delivered here.

The judgment deals with the west-bound freight traffic the point of whose origin lies within the "select region" the reduction shall be calculated as less than the distance between that point of origin and the westerly limit of the "select area." Diamond Junction, bears to the whole distance from the point of origin to the ultimate destination. That is to say, a commodity transported, for example, from Moncton, N.B., to Calgary, Alta., enjoys the 20 per cent. freight reduction not on the entire Moncton-Calgary rate but on that proportion of the Moncton-Calgary rate which that commodity bears on the distance between Moncton and Diamond Junction, or Lewis, Que.

Talks To Buenos Aires

Prime Of Wales Telephones Across 6,500 Miles From London To Argentina

London, England.—The Prince of Wales picked up his telephone in York House and sent his voice across 6,500 miles to Buenos Aires, talking for seven minutes with Sir Herbert Gibson, chairman of the British trade exhibition, while the Prince will open in the Argentine capital March 14.

So clear was the transmission that friends sitting near the Prince could hear what Sir Herbert said. First he read a message of welcome to the heir and then there was an informal chat.

To Improve Potato Crop

Winnipeg, Man.—Potato growers of Manitoba were urged to use certified seed and to strive to produce No. 1 grade crops, by John Tucker, chief potato inspector of the Dominion, who addressed the board of trade's agricultural bureau recently. Manitoba's production in the last 10 years, he said, averaged 135 bushels per acre, which he considered low.

Will Celebrate Diamond Jubilee

Victoria, B.C.—British Columbia will celebrate her diamond jubilee with all the pomp and circumstance befitting the occasion, at the capital of the province on July 20 this year. It was on July 20, 60 years ago, the Crown Colony of British Columbia was formally included in Confederation.

U.S. Motor Vehicle Deaths

Chicago.—There was 32,500 motor vehicle deaths in the United States in 1930, the National Safety Council estimated recently. This figure represents an increase of approximately 1,500 deaths over the 1929 period.

Courage Needed Says Federal Woman Member

Miss MacPhail Thinks Representatives in House Should Follow Their Conscience

Brantford, Ont.—"You can take your conscience into the House of Commons, but to keep it there—oh, boy!" commented Agnes MacPhail, M.P., in an address here, after reviewing the attitude of the members toward a woman colleague.

Miss MacPhail declared that there was great need today in parliament for members to follow their own consciences, and courage to stand for what was right, irrespective of party or the big interests. The House, she said, "badly needed Rt. Hon. Arthur Meighen and Hon. Charles Dunning, two men of courage."

She declared that property could not be secured by injecting life into one or another industry as with a hypodermic needle, but was dependent on the prosperity of all.

British Shipyards Busy

Built Over Third Of World Construction During Last Quarter-Year

London, England.—Well over one-third of the total shipping under construction in the world in the quarter-year ending December 31, was in British shipyards, according to Lloyd's quarterly report. The exact percentage was 39.4 out of a total of 2,228,089 tons. The only figures not taken into account are the comparatively small tonnages building in Russia, which does not supply statistics.

The number of ships being built in Great Britain in the quarter was 181 with a total tonnage of 908,502. This was a decrease of 207,844 tons from the previous quarter, and 651,352 tons less than in the same period of 1929.

Of the foreign tonnage under construction, 232,030 was recorded in the United States, 231,215 in Germany, 179,677 in Italy, 174,215 in France, and 160,078 in Holland.

Opening Of Manitoba's Legislature Announced

January 27 Date Decided On At Cabinet Meeting

Winnipeg, Man.—Manitoba's legislature will open Tuesday, January 27, Premier John Bracken has announced. Decision to commence the session on this date was reached at a cabinet meeting.

Unemployment relief measures loom as an important subject for the session. Re-adjustment of provincial taxation to enable the government to reduce the municipal levy by one-half is another important piece of business to be discussed by the members of the legislature.

Expect Improvement In Fishing Industry

Comprehensive Survey Being Carried Out By Fisheries Department

Halifax, N.S.—A marked improvement and more stable conditions in the Canadian fishing industry are expected in the reasonably near future by Hon. E. N. Rhodes, minister of fisheries.

Speaking of the survey of the industry being carried out by the department, Hon. Mr. Rhodes said it was of such a comprehensive character that it could not be completed before next August. A study of market conditions at different seasons of the year was one of the factors involved.

Question Of Gold Payment

Paris, France.—The answer of the French Government to the last British note relating to the payment in gold of the French war loan, which will be remitted soon, will constitute a courteous refusal to submit the differences to the exceptional procedure of arbitration, when normally competent jurisdiction has not been invoked, it was reported recently.

Racer Sails For States

Southampton, England.—Capt. Malcolm Campbell, British automobile racer, sailed on the "Homeric" for New York with his racing car, the Bluebird. If arrangements for his speed trials at Daytona Beach, Fla., at present somewhat confused, are not settled, he said he is ready to go on to New Zealand.

Is Canadian Firm

Toronto, Ont.—Durrant Motors of Canada, Limited, is now owned, controlled and operated by Canadians, was announced by Roy D. Kerby, president and general manager of the company. The announcement said the company is now probably the only automobile company in Canada so controlled and managed.

Advocates Fruit Growing

Manitoba Farmer Says More Money In Fruit Than In Grain

Winnipeg, Man.—A pioneer fruit grower of the prairies told delegates to the annual convention of the Manitoba Horticultural Association recently that fruit growing should be regarded as a profitable field by farmers.

It's a four acres of crab apples, plum and hybrid cherry trees netted him a greater profit last year, William Shepherd, Hatfield, Man., said, than 300 acres of grain would have. Mr. Shepherd considered fruit farming had a bright future in Manitoba.

HUGE TELEGRAPH MERGER MAY BE ARRANGED

Montreal.—Amalgamation in a \$50,000,000 corporation of the respective commercial telegraph systems of the Canadian Pacific Railway and the Canadian National Railway is being considered by the two parties. The Canadian Press understands the proposal has also been put before the Dominion Government at Ottawa. This is the much larger idea behind the statement in Ottawa of Sir Basil Blackett, chairman of Imperial and International Communications, Limited, "that the Canadian Pacific and the Canadian National shall become partners with the I.L.C. in forming a Canadian overseas communication company, which shall include the Canadian Marconi Company."

The suggested amalgamation presents obvious advantages and no less obvious disadvantages. Economically, there would be the saving in the present duplication from coast to coast in equipment and personnel, but even more important would be the advantages of a strong all-Canada corporation, able to meet competition and hold its own against all comers.

For neither of the two Canadian commercial telegraph companies is really independent, because each is necessarily allied and more or less dependent upon one or other of the rival United States communication groups, the Western Union and the Postal, which, again results in the bulk of overseas going through foreign rather than British channels.

This strong corporation would operate at a much lower cost and therefore at lower rates to the permanent advantage of the Canadian public. At the present time, eight commercial telegraph zones are strung across the Canadian continent, and a message, to pass from one to another and beyond, means an increasingly higher rate, constituting a heavy toll on the economic life of the country. It is probable that such an amalgamation would permit of the cutting down of these eight zones to only three: Eastern zone, from Cape Breton to the Head of the Lakes; Central zone, Head of the Lakes to Regina; Western zone, Regina to Victoria. In other words, commercial telegraph traffic would have to bump over only two cost summits as from coast to coast, instead of over seven, while the great area of Eastern Canada would enjoy a flat rate.

Winning Manitoba Communities in C.N.R. Progress Contests

Completion of the first year's contests in the Canadian National Railways community progress competitions for European settlements in Manitoba placed Rosburn, Ukrainian, first; Steinbach, Mennonite, second; Rhineland, Mennonite, third; Elbert, Ukrainian, fourth, and Stuartburn, Ukrainian, fifth. Above pictures show: (1) Residence of Jacob Schollenberg, Rhineland; (2) Rhineland school, Steinbach; (3) A. R. Penner's farm house, Steinbach; (4) Main street of Elbert; (5) Community Hall, Rosburn; (6) Byrd school, Rosburn, and (7) King George school, Rosburn.

PHYSICAL EDUCATION EXPERT

Captain Robert Jarman, now of Manitoba, physical education expert, who has just finished a series of demonstrations of his long jump with gold in Toronto. He may be brought to Toronto when his Manitoba contract expires.

Gift From Lord Willingdon

Governor-General Presents Car To Children's Aid Society, Ottawa

Ottawa, Ont.—Ottawa's needy children are to have a handsome automobile of their own—the gift of the departing Governor-General and Viscountess Willingdon.

The generous presentation was made by Their Excellencies to Mrs. C. H. Thompson, prominently identified with several organizations having to do with child welfare. In tendering the auto, of an expensive make and brought to the Dominion when Lord and Lady Willingdon first took up residence here, Their Excellencies voiced a desire that it be devoted to the use of the children for their various outings.

The car will be used by Ottawa's young folk, under direction of the Children's Aid Society.

Buyers Seat On Grain Exchange

Arthur Cutten, Chicago Operator, Pays Good Price For Entry To Winnipeg P.E.

Winnipeg, Man.—With wheat depressed as king in the Chicago grain pit, operators there are transferring their activities to the Winnipeg Grain Exchange.

The latest recruit to the local pit is Arthur Cutten, Canadian-born and long called king of the traders, who Tuesday, January 13, bought a seat on the Winnipeg Grain Exchange. While his interests traded here before, this is the first time Mr. Cutten has been a qualified member of the Exchange.

Cutten is understood to have paid \$12,600 for his membership.

Ferguson High Commissioner

Ottawa, Ont.—Canada's new High Commissioner in Great Britain—Hon. G. Howard Ferguson—became a member of the Canadian Privy Council, January 14. Accompanied by Premier R. B. Bennett, the High Commissioner proceeded to Government House and in the presence of His Excellency took the oath as a privy councillor.

Wheat Exports Increased

Canada Exports More Wheat During Past Nine Months Than During Same Period Previous Year

Ottawa, Ont.—At the three-quarter mark in the present fiscal year Canada had exported considerably more wheat than during the corresponding period last year, but the amount realized from the business was appreciably lower. Figures issued through the department of national revenue show that the Dominion exported 184,442,015 bushels of wheat during the nine months just closed, for which the sum of \$157,755,170 was realized. In the corresponding nine months of 1929-30 the total quantity exported was 153,637,017 bushels, valued at \$172,621,811.

Both exports of domestic commodities and imports into Canada suffered a big decline in the nine months just ended. Total imports during the nine months just ended were \$729,591,813, as compared with \$963,643,518 in the corresponding period of 1929-30. Total exports of Canadian produce during the past nine months were to the value of \$656,113,905, as against domestic exports during the nine-month period of last year, which totalled \$890,465,841.

Mounties Will Visit Argentine

Four Picked Members Of Force To Be In Charge Of Canadian Exhibit

Winnipeg, Man.—Four picked members of the Royal Canadian Mounted Police will sail for Buenos Aires on the Canadian National steamship "Prince Robert" from Halifax on February 21, according to advice received here. They will be in charge of the Canadian exhibit at the British Empire Trade Fair and will in themselves be a splendid advertisement for the Dominion.

The large Canadian delegation will also sail for South America on the "Prince Robert." The men selected are, from Saskatchewan.

BID WILLINGDONS FAREWELL ON LEAVING CANADA

Ottawa, Ont.—Ottawa said "good-bye and good luck" to Their Excellencies Viscount and Viscountess Willingdon in the height of a sparkling sharp Canada winter day, prominent representatives of the political, diplomatic, business and social worlds of the Dominion gathered to bid farewell to the Governor-General and his wife, who for the past four years have lived among the Canadian people. Bright uniforms of the soldiers, who constituted travelling escort and guard of honor for Their Excellencies, and the band of the governor-general's beautiful roses with its message of "Good Luck" added colour to the scene.

Headed by Rt. Hon. R. B. Bennett, prime minister, members of the Dominion cabinet were present to shake the hands of Viscount and Viscountess Willingdon for the last time. Rt. Hon. W. L. Mackenzie King, Liberal leader; Hon. G. Howard Ferguson, newly-appointed high commissioner for Canada in Great Britain; Hon. Vincent Massey, former Canadian minister to Washington, representative of foreign governments in Ottawa, and others prominent in various walks of life in the Dominion were among the crowd which gathered at the station.

After the last farewells were said, as the train moved slowly away from the carpeted stairway up which Their Excellencies had walked to the rear platform of their private train, the band of the governor-general's foot guards struck up the National Anthem, and in a minute changed to the familiar strains of "Auld Lang Syne." The crowd broke into cheers. Their Excellencies waved farewell, and the train pulled away.

Viscount and Lady Willingdon will spend a couple of months in England before leaving to take up their new duties in India.

From Government House, which Their Excellencies left shortly before noon to drive to the state car of the Central Station, a travelling escort of the Princess Louise Dragoon Guards accompanied them. Boy Scouts led the drive through to the vice-regal party drove in the Governor-General's grounds. His Excellency was Chief Scout for Canada.

Accompanying Their Excellencies were E. C. Miville, private secretary; Mrs. Miville, Col. Humphrey Massey, member of the household, and members of the staff. Mr. and Mrs. Miville will go to India with Lord and Lady Willingdon.

EARTHQUAKE CAUSES HAVOC IN MEXICAN CITY

Mexico City.—Soldiers were turning over the wreckage of the thriving city of Oaxaca, carrying out the bodies of men and women who perished in the earthquake which rocked Southern Mexico.

At least 12 persons perished and many more were injured. Telegraphic communication was impossible and radio messages irregular. The city itself, fragmentary messages said, was in ruins and panic-stricken people slept in the open, despite intense cold, because they were afraid to go back to such homes as were left standing.

The only clear picture of the disaster came out of the ruined city in a message to President Ortiz Rubio from Generalissimo of the state of Oaxaca.

It was he who said that at least 25 persons had been killed or injured. Another message to the department of communications said that 12 had been killed, but this could not be verified immediately.

"It is impossible to describe the confusion here," the general's message said. "The loss is incalculable. At least 25 persons have been killed or injured and we are still discovering bodies of the dead."

The general's home was destroyed and he was living in his automobile, he said. The military barracks were in ruins and a column of cavalry was one of those killed. The police were helping the soldiers to search the ruins for additional victims.

Epicenter of the "quake," which struck Oaxaca, was placed a few miles northeast of the city. Mexico City itself was shaken for four minutes, and one person was killed and 25 injured. There also was considerable property damage.

Revenues Decrease

Ordinary Revenues For Canada Decreased By \$66,000,000 In Nine Months Period

Ottawa, Ont.—Ordinary revenues of Canada decreased by \$66,000,000 approximately for the nine months ended December 31 last, as compared with the corresponding period in 1929. During the past nine months' period, according to the statement issued recently, ordinary revenues totalled \$285,221,051, as against \$351,287,325.

Ordinary expenditures increased by \$15,000,000 in the period under review. For the nine months ended December 31 last, ordinary expenditures amounted to \$280,722,205 as contrasted with \$265,141,767 for the period of 1929.

The statement represents only the receipts and payments which have passed through the books of the department of finance up to the last day of the month.

The net debt of Canada, according to the statement, shows an increase. On December 31 last, the net debt was \$2,193,748,531, as compared with \$2,159,214,730 on December 31, 1929.

New Commander Appointed

Lieut. Hart Will Take Canadian S.S. V. Vancouver On Winter Cruise

Ottawa, Ont.—Lieut.-Commander Frederick G. Hart, R.C.N., has been appointed to the command of H.M.C.S. Vancouver. His appointment took effect on January 20 and he will take the "Vancouver" on its winter cruise to United States and other foreign ports, leaving Esquimalt, B.C., on January 26.

Lieut.-Commander Hart joined the Royal Canadian Navy during the war as a cadet at Halifax and was promoted to lieutenant commander in 1928. He qualified for command of destroyers while serving in the Royal Navy in 1929.

To End Slavery In Liberia

Washington, D.C.—The United States would be willing to associate itself with the League of Nations in setting up an international commission to end slavery in Liberia, the United News learned recently from a high official.

Feels Germany Breaks Promise.—Paris, France.—A conference of ambassadors here is believed to have discussed the question of German armaments, with the impression prevailing that Germany has allegedly failed to fulfil all disarmament promises under the Versailles treaty.

Homestead Entries Increase

Edmonton, Alberta.—According to Provincial Government figures, homestead entries and soldiers grants for the month of November amounted to 758 as against 553 for the same period last year.

Here and There

Pressure of business and growth of the Canadian Pacific Telegraphs has necessitated the appointment of an assistant general manager of the system. W. D. Neill, assistant manager, western lines, Winnipeg, having been promoted to the position. Other appointments resulting from this are: W. M. Thompson, superintendent, Ontario Division, Toronto, to be assistant manager, western lines, Winnipeg; H. S. Ingram, superintendent, eastern division, Montreal, to be superintendent, Ontario division, Toronto; and W. S. Emery, chief operator, Montreal, to be superintendent, eastern division, Montreal.

Fox Film Corporation during early July took sound records of the wind in the pines, the music of the waterfalls and the rippling of streams around Banff Springs Hotel and into this boxed atmosphere there will be placed actors and actresses who will be shown climbing mountains, walking by the side of lakes and enjoying the water-courses they have never seen.

Beating the world's record in passenger traffic operations, western Canada came into the limelight at the end of June when the 1,252 mile continuous run from Fort William to Calgary performed by Canadian Pacific engine No. 2808, of the H.I. class of this locomotive is one of several new in service and under construction for the railway and are the latest type of passenger engine.

Carrying nearly a hundred tourists organized by the University of Montreal, a special Canadian Pacific train left Montreal July 5 for western Canada and the Pacific Coast. This tour is the sixth annual transcontinental trip undertaken and will last for three weeks. The richest industrial, agricultural and commercial districts of Canada, as well as the most beautiful scenery, including the Rocky Mountains, will be visited.

With a five-pound trout taken himself and a four-pounder landed by his son, in the catch, Arthur C. Roche, of Melrose, Mass., has just concluded a ten-day fishing trip down the Cain's River, New Brunswick. He said he had never heard of waters where there were so many trout as in Cain's River.

A total of over \$27,000,000 is to spend this year on the construction and maintenance of roads throughout Canada. Ontario has set aside \$12,500,000 of which \$10,000,000 for new construction; Quebec will spend \$11,000,000 for extending, improving and maintaining the provincial system of roads. Maritime will spend \$10,000,000; the Prairie Provinces, \$15,000,000; and British Columbia, \$8,500,000, representing a total of \$27,000,000 spent by provincial governments.

The old gentleman, Father Time, often regarded as somewhat restless, has had one put over him by the plant-breeder of the Government, Central Experimental Farm at Ottawa. Two crops of grain are now grown there in each year, one in the open and the other in greenhouses, brilliantly lighted with electric lamps, which have proven to be good substitutes for sun's rays.

The Maritime Livestock Marketing Board have extended their purchasing plan so that now farmers' clubs and associations may purchase feeds at a considerable saving over prices than formerly. Several carloads of feed have already been ordered.

The directors of the Canadian Pacific Railway have decided to apply to Parliament for an amendment to the company's charter permitting it to change the par value of shares of the ordinary stock from \$100 to \$25 per share with the exchange of one share of the old stock for four shares of the new. This action has been dictated by a desire to place the company's shares within the reach of investors of moderate means and thus increase the number of its shareholders, particularly in Canada.

Canada has one motor vehicle for every nine persons of population. A recent estimate places the aggregate number of motor vehicles in the Dominion at 1,076,819. Only three countries exceed Canada in heavier density of motor cars, namely, United States, with one to every 5.11 persons; Hawaiian Islands 7.5 persons; and New Zealand 8.0 persons.

The New England conscience goes busy recently in a small town in Massachusetts when a resident mailed back anonymously to the maitre d'hotel of the Royal York Toronto, a package of spoons, set tables and dining room "sundries" borrowed some time previously. The writer, in returning the article to Monsieur Maitre, said: "My conscience has been bothering me a great deal since and I have been unable to keep them any longer."

A short course for departmental judges was held recently at the Ontario Agricultural College, Guelph. Over 125 were present, including judges of ploughing matches, standing field crops, heavy and light horses, beef and dairy cattle, and sheep and swine. Classes were started some and fourth prizes were given for purposes of demonstration so that a uniform standard may be maintained for judging at shows and competitions.

AND WHO KNOWS?

Here is a new item, 69 years old. It is taken from a New York newspaper:

"A man about forty-six years of age, giving the name of Joshua Copersmith, has been arrested for attempting to extort funds from ignorant and superstitious people, by exhibiting a device which, he says, will convey the human voice any distance over metallic wires so that it will be heard by listeners at the other end. He calls the instrument a 'telephone', which is obviously intended to imitate telegraph and win the confidence of those who know the success of the latter instrument without understanding the principles on which it is based. Well-informed people know that it is impossible to transmit the human voice over wires, as may be done with dots and dashes and signals of the Morse Code, and that, were it even possible to do so, the thing would be of no practical value."

Insulted!

"Harry, love! exclaimed Mrs. Knowall to her husband. 'I have been d-dreadfully insulted!'"

"Insulted! By whom?"

"By your m-mother," answered the young wife, bursting into tears.

"My mother, Flora? Nonsense! She's miles away!"

Flora dried her tears. "I'll tell you all about it," she said. "A letter came for you this morning, addressed in your mother's writing, so I—I opened it."

"Of course," repeated Harry.

"It—it was written to you all through. Do you understand?"

"I understand. But where did the insult come in?"

"In the postscript," cried the wife, bursting into fresh floods of tears. "It s-said, 'D-dear Flora, d-don't fail to give this l-l-etter to Harry. I w-want him to have it.'"

Here and There

(582)

Changes in operating organization on Canadian Pacific western lines are announced as follows: J. H. Chown, superintendent of Saskatchewan southern lines, transferred from Regina to Edmonton; J. M. MacArthur, superintendent of Medicine Hat division, transferred to Regina; G. J. Fox, charge of Edmonton division, transferred to Medicine Hat. These transfers are made in accordance with the company's policy of enabling its officers to broaden their experience in railway matters.

American golfers beat British players because they are more interested in the scientific angles of the game and generally speaking try harder, according to Don Nise, University of Oregon wizard, interviewed at Vancouver, travelling Open at Chicago and the American Open tournaments at Minneapolis. He described English golfers as the best sportsmen he had ever encountered.

Seven hundred Americans, about two thirds women, toured Nova Scotia recently by Dominion Atlantic Railway, after arrival at Halifax aboard S.S. Californian on "A Cruise to Nowhere," the larger part of which is spent at sea outside the 12-mile limit. There were three of these cruises during July and August from New York.

Five more new bridges are to be constructed on New Brunswick highways, tenders having been called for by Hon. D. A. Stewart, Minister of Public Works, for modern structures to be built with attendant improvement of roadway alignment. One of them will be a trestle span across the Little River at Grand Falls.

Since July 1 the wild rose is officially the floral emblem of Alberta, the Act passed by the Legislature at the last session, going into effect on Dominion Day.

A quantity of coconuts will be brought to Montreal in their native state for the purpose of demonstrating the process of washing silk and converting it into the finished product at the National Produce in Canada Exhibition. It was held in that city November 2-8 last.

Canadian entries in the overseas section of the British National Exhibition are holding their own with the world's best egg producers. Eggs received by F. C. Elford, Dominion Husbandryman, show that Canadian hens hold their own in the international contest. First place is held by France and second by Ireland.

E. D. BATTRUM, Auditor.

Address of Auditor: 219 F. Burns Building, Calgary, Alberta.

Dated at Blairmore, Alberta, this 17th day of January, 1931.

An Investment
A young blood of Aberdeen gave his girl a lipstick for her birthday. He knew he would get it all back.

The haggard-looking man got into conversation with the happy, carefree bachelor on their train journey to the north. "Yes," said the former, "I'm the father of six daughters."

"Then you and your wife have six mouths to feed," replied the bachelor. The haggard-face shook his head: "No, we have twelve," he returned. "They are all married."

Husband: "If a man steals—no matter what—he will live to regret it."

Wife (sweetly): "You used to steal kisses before we were married."

Husband: "Well, you heard what I said."

"Who is really the boss in your house?" inquired the friend.

"Well, of course, Maggie assumes command of the children, the servants, the dog, the cat, and the canary. But I can say pretty much what I please to the goldfish."—Exchange.

No Accident
A cowboy, out of work because of the slump in cattle, decided to make an easy and permanent place for himself by joining the army. The medical examiner found him sound physically, and asked him if he had ever been ill.

"Nope," came the emphatic reply. "Ever had an accident?" next asked the examiner.

"Nope, no, sir-ree!" came even more emphatically.

"Well, what's that rag tied round your finger for?"

"Battlemate bit me."

"Don't you call that an accident?" asked the doctor.

"Nope; the darn snake did it on purpose."

"Well, yer worship, it was like this," said the man charged with disturbing the peace. "Me and the wife gets into an argument over the washin' money. She calls me a lazy loafer, and hits me over the head with a kettle. Then I knocks her down an' she comes up again and knocks me down and kicks me in the neck."

"I see," said the magistrate, "and what next?"

"Well, of course then we gets mad and starts to fight."

E. D. BATTRUM, Auditor.

Dated at Blaimore, Alberta, this 17th day of January, 1931.

Address of Auditor: 219 P. Burns Building, Calgary, Alberta.

Lead Me To It!

Here is the latest election story from Britain—where the "flapper" got their first vote recently. A canvasser called at a house and was greeted by a flapper.

"Are you interested in the Liberal Party?" he inquired.

"Why, of course," replied the girl, "where are you having it?"

Little Sandy: "Father, what is the meaning of this sentence—'They gladly subscribed to the Charity'?"

Father: "I dunno ken, liddle, some things are past my comprehension."

Safety First

A lady went into a photographer's to have her picture taken—naturally. While the photographer was adjusting the camera, the lady wringed a clothes-line around her skirts.

"You'll have to take that off, madam," said the photographer. "I can't take your picture that way."

"You can't fool me that way, young man," she said. "I know you see me upside down in that camera."

Lawyer: "Did you see the automobile approaching the railroad track?"

Watchman: "Yes, I did. That's a nice car, wasn't it?"

I gaze across the street so wide, I start, I dart, I quirm, I glide. I take my chances, oh, so slim—I trust to eye, and nerve and limb. I scoot right, left, I gallop through. I'm here, I'm there, I'm lost to view.

My life, I know, hangs in the toss—Another plunge, there, I'm across! Oh, give me pity if you can, I'm just a poor pedestrian.

Aberdeen Girl: "Mother, what does this proverb mean: 'Friends agree best apart'?"

Mother: "It means, lassie, that the less we see of your father's folk, the better."

A backwoods mountaineer one day found a mirror which a tourist had lost.

"Well, if it ain't my old dad," he said, as he looked in the mirror. "I never knewed he had his pitcher took."

He took the mirror home and stole into the attic to hide it. But his suspicions didn't escape his suspicious wife. That night while he slept she slipped up to the attic and found the mirror.

"Hum-um," she said, looking into it, "so that's the old hag he's been chasin'!"

Hoist Ship Through Window

When it was decided to exhibit in a London department store for the Christmas season, the historic half-ton water-line model of the Canadian Pacific super-liner "Empress of Britain" which had been featured a few weeks previously in the Lord Mayor's Show, it was found necessary to lift the model about thirty feet in the air so that its great size might be safely admitted to the department store by an upper window. The photographer has caught the scene just as the model is entering the window. Traffic was blocked for an hour during the hoisting of the model, which was carried out with complete success.

SEVENTY-EIGHT YEARS YOUNG

I'm seventy-eight years young today,
Just seventy-eight years young,
And life is just as sweet to me
As when it first began.
I cannot say I look as young
As forty years ago,
Because I've had experience
Which leaves its mark, you know.
But I insist I feel as brisk
As in my youthful days,
When all the world was bright and gay.
And full of beautiful rays.
And I ain't thought of quitting yet,
Can't think it would be straight
To sit around and loaf all day,
Because I'm seventy-eight.
When I get old, if e'er I do,
I ain't a-going to die,
I'll take a long lease residence
In a mansion in the sky.
Where I can watch the friends I've left
And guide them o'er life's sea,
So when they're old, and want to quit,
They'll find a home with me.
—Jas. L. Lee

The above was written by James L. Lee one week before he passed away at Grand Haven, Michigan, July, 1917.

THE SALESMAN

When you only get down at half-past ten,
And make your calls only now and again;
When you call on your man and try to be gay,
And all you get is "Nothin' doin' to-day"—
Then you're a Peddler!
By jinks, you're a Peddler!

When you rise with the lark and call on your man;
You ask, can he see you, and he says, "Sure you can."
You write him up as he looks at the mail,
And he gets away with only one bale—
Then you're an Order Taker!
By jinks, you're an Order Taker!

When you hurry along and everything's fine;
In the office at eight and "Digging" by nine;
When you smile and follow a well-made plan—
And you sell a big order to every man—
Then you're a Salesman!
By jinks, you're a Salesman.

Here and There

Prince Ivan, the Russian president of the Japanese House of Representatives, who visited Japan, visited Canada, met recently on board Canadian Pacific in a Congress of Russia. The Prince was on his way to London to attend the International Conference and took the opportunity to see his son who had come to Victoria from Ottawa to meet him.

Leaping into shore-infested waters in the "China Sea" railway between Hong Kong and Shanghai, Carpenter Tom Ellworthy, of the S.S. Empress of Russia, and the wife of Mrs. McKerrill, passenger on the ship who had jumped overboard in fit of dementia. The woman strongly resisted efforts to rescue her and 4th Engineer Dean went to Ellworthy's assistance, the two men succeeding in bringing her back aboard ship after a long and exhausting struggle.

The season's first climb of Mt. Temple, 11,600-foot peak in the Rockies, was made last week by Dr. Thornton of Philadelphia, well-known writer and Alpinist, and W. Kerr, of Vancouver. Edward Feuz, dean of Swiss guides in the Rockies, was in charge of the climb which started out from Chateau Lake Louise at three in the morning and reached the summit at ten.

With the opening of the New Pines Hotel at Disney and of the Algonquin Hotel at St. Andrews-by-the-Sea at the end of June, the tourist season in the Maritime Provinces is now in full swing. Reservations at both hotels are very heavy, forecasting a prosperous season.

Difficulties met by Canadian and United States motorists when taking their cars to Europe have been overcome by facilities afforded by the Canadian Pacific Railway, under which the owner can ship his car as baggage between Canada and European points in either direction. The company arranges for the necessary customs and registration documents for every country to be visited, driver's license, license plates, and membership in the Royal Automobile Club. The car is unloaded within an hour of the ship's arrival and is furnished with oil and a small supply of gasoline and made ready for the road with a price of no red-tape and no bond or other financial guarantees required.

Battered to be the largest salmon ever taken by fly on the Medway River, Cape Breton, Archie Joudry, Baugscote Club guide, took a fish recently that weighed 32 lbs. was 42 inches long and had a girth of 11 inches. The fish has been photographed for reproduction in the Saturday Evening Post.

The railway grade crossing problem is not a problem of the day's making but essentially a "social problem" and responsible to the long and varied history of the society as a whole. The railway W. F. Bonard, Chief of the United States Interstate Commerce Commission.

"Pointers on Bread Making"

A booklet containing some new and simplified ideas on bread making. Sent free on request.

Western Canada Flour Mills Co. Ltd., Winnipeg, Calgary.

PURITY FLOUR

WORLD HAPPENINGS BRIEFLY TOLD

An increase of \$5,592,819 (about \$27,117,472) in Britain's adverse trade balance for 1930, as compared with 1929, was revealed in board of trade statistics.

The United States Senate Immigration Committee has referred the Reed resolution providing a two-year ban on immigration to a sub-committee for consideration of changes.

Exclusion of Orientals from ownership or control of Crown lands in B.C. is sought in a petition to the provincial government by the White Canada Association of Vancouver.

Inquiries for Canadian products have been received by L. M. Cogger, Canadian trade commissioner to Shanghai, resulting from the Canadian trade delegation's visit.

There should be no fear regarding disposal of the 1930 B.C. canned salmon pack, in the opinion of Major J. A. Motherwell, chief supervisor of fisheries.

Three men were killed and one injured when a Royal Air Force bombing plane crashed into a dyke bank at this village on the border of Nottinghamshire and Lincolnshire, England.

The division of the waters of the St. Mary and Milk Rivers in Alberta for irrigation purposes will again be considered by the International Joint Commission at its regular half-yearly session in Ottawa during April.

Money in circulation in the United States increased \$28,000,000 during 1930. The circulation statement of the treasury showed that on December 31, \$4,890,000,000 was going the rounds.

A contribution of \$50,000 for expenses of participation by the United States in the world's grain exhibition and conference at Regina, Sask., in 1932, was recommended by Secretary of State, Henry L. Stimson, in a report which was forwarded to congress by President Hoover.

A representative of the government will be present at the opening on March 14 of the British Empire Trade Fair at Buenos Aires, but no announcement has yet been made as to the minister whom Premier R. B. Bennett will send to the Argentine capital.

A Word To the Farmer

Must Produce Quality and Control Volume of Products

In a message to eastern farmers recently issued, the Hon. R. Weir, Federal Minister, points out that to compete in world markets the farmers of Canada must: (1) continue to make progress along the lines of even more scientific farming; (2) reduce the cost of producing farm products; and (3) having a definite purpose in marketing, (a) see that no product inferior in quality goes to a foreign market, (b) produce in sufficient volume to hold a market once obtained, and (c) regulate supply to such markets as to prevent flooding.

A Nifty Headlight

Some day the captain may turn to the first mate and ask: "Hear that headlight?" Sound funny, but John Rohlf, marine expert, declares that a new type of headlight with a modified radio beam, combining light and sound, will soon make navigating in fog safe.

Impressed With North Country

American Writer Is Surprised At Mining Development In Northern Manitoba

Those coming to The Pas, Flin Flon and Sheridon to see frontier towns where life is in the raw, and "anything goes" would do well to stay away from these centres, W. L. Henderson, a writer from Chicago, Ill., visiting in the north, declared in an interview. Mr. Henderson, a free lance newspaper man, and fiction writer, has been searching for local color for a series of stories he is going to write on northern Manitoba's north country.

"The progress this country must have made in the past five years is startling," he declared, "Flin Flon and Sheridon are astounding communities to find far in the bush country north of the 54th parallel."

"I considered I was fairly well informed on Canada's north country, but I have been astounded by the signs of industrial progress, lawful behaviour of citizens, and the great future that is apparent for these towns and cities," he remarked.

"Flin Flon will rank with any mine on the continent as a modern metallurgical plant and Sheridon, Gordon will prove to be a rich producer," he predicted.

Winnipeg Newspaper Union

(By Eva A. Tingey.)

At the present time a long distance call from Montreal to Vancouver would require a connection first with Chicago then with Seattle and from there to Vancouver.

Up to the present time it has been impossible to link western Canada with eastern Canada over an all-Canadian route. This has been partly due to differences in standard equipment of the various companies, but chiefly to the fact that what is known as "long" long distance service requires somewhat different equipment than the "short haul" traffic, such as large size copper wire, etc.

With a view to inaugurating the all-Canada service, large size copper wires have already been installed between Toronto and Winnipeg, while the three government systems of Manitoba, Saskatchewan and Alberta are now at work constructing such heavy duty lines preparatory to the introduction of the all-Canada service.

British Columbia and Maritime organizations are also undertaking the work, so that in the near future the construction of the line from coast to coast is expected to be completed.

At the rate the work is at present proceeding, it is anticipated that by the summer of 1931 long distance messages may be transmitted from Halifax to Calgary, and by the spring of 1932, it is expected the entire coast to coast service will be in operation.

GRACEFULLY FALLING SKIRT

All Tingey models are created and sketched in Paris and the patterns are made in New York.

This model is especially nice for the woman of average full figure. The front, in wrapped arrangement is decidedly slimming.

And into the bargain, it's such a simple easy dress to wear. It absolutely eliminates any trimming. The softly falling tunic flounce of the skirt is charmingly graceful.

The original model is dark green crepe patterned woolen is very serviceable. It can be carried out in almost any of the new smart fabrics as canton crepe, maroon crepe, satin crepe, velvet and rayon novelties.

This pattern may be obtained in sizes 16 to 20 and 36 to 42. It is ready for immediate delivery. It is hand cut.

Send 25 cents (in stamps or coin) to Fashion Bureau. Write carefully and plainly your name and full address, the number of the pattern and the size you want.

Pioneer Captain Dead

Captain John Ward Templeman, 87, pioneer of the Great Lakes, died recently at Orillia, Ont. He was born in Lincolnshire, England, and came to Canada in 1866 on the brig "Seagull." He was engaged in the Great Lakes timber trade for many years and initiated navigation on the Magnetawan River at Burk's Fall, in 1868.

AWARDED PEACE PRIZE

Former Secretary of State Frank Kellogg, returning from Oslo, Norway, in Oslo he was awarded the Nobel peace prize for 1929 for the famous Kellogg treaty whereby war, as a means of arbitration, was outlawed by leading powers of the world.

All-Canada Phone System

Big Telephone Project To Link Halifax With Vancouver

As a result of the co-operative arrangements between the seven main telephone systems of Canada, the work is now proceeding to realize an all-Canada transcontinental system that will make it possible for a firm in Halifax to speak with one in Vancouver, a distance of 4,319 miles, without using lines outside of the Dominion.

At the present time a long distance call from Montreal to Vancouver would require a connection first with Chicago then with Seattle and from there to Vancouver.

Up to the present time it has been impossible to link western Canada with eastern Canada over an all-Canadian route. This has been partly due to differences in standard equipment of the various companies, but chiefly to the fact that what is known as "long" long distance service requires somewhat different equipment than the "short haul" traffic, such as large size copper wire, etc.

With a view to inaugurating the all-Canada service, large size copper wires have already been installed between Toronto and Winnipeg, while the three government systems of Manitoba, Saskatchewan and Alberta are now at work constructing such heavy duty lines preparatory to the introduction of the all-Canada service.

British Columbia and Maritime organizations are also undertaking the work, so that in the near future the construction of the line from coast to coast is expected to be completed.

At the rate the work is at present proceeding, it is anticipated that by the summer of 1931 long distance messages may be transmitted from Halifax to Calgary, and by the spring of 1932, it is expected the entire coast to coast service will be in operation.

Marine Merger

World-Wide United States Shipping Service To Be Created

A world-wide shipping service under the United States flag will be created through a consolidation of interests of the International Mercantile Marine Company and the Roosevelt Steamship Company, which was announced in New York.

The merger, which has been rumored for several months, was announced by P. A. S. Franklin, president of the International Mercantile Marine. The Roosevelt Company, which was organized in 1925, will retain its corporate identity.

West Indies and Canada

Canada must assume a temporary role of "big brother" to the British West Indies if the full possibilities of trade between these parts of the Empire are to be attained, says a report issued by the Empire Club of Ottawa following a study of the subject. In other words, the report holds, Canadians must spend a greater sum in the West Indies in order that the island citizens may be placed in a position where they can become heavy purchasers.

Has Done Some Walking

After walking a distance of more than four times around the world at the Equator during the last 35 years Fred A. Dullahan, Central Vermont railway messenger, at St. Albans, is beginning his 58th year of hiking. He has averaged 15 miles per day, 300 days per year for 35 years, giving him a total walking mileage of 100,000.

Three pennies of Edward the Elder, 901-925 were sold in London recently for \$750.

NO MORE ECZEMA

Moose Jaw Grain Elevator

Dominion Government Grain Elevator Has Huge Storage Capacity

"Although the normal capacity of the Dominion Government grain elevator at Moose Jaw (exclusive of the new 2,000,000 bushel addition) is generally placed at 3,500,000 bushels," says "The Optimizer," "this amount of grain has been exceeded on several occasions during the past few weeks. On October 30th last, a total of 3,584,792 bushels of various grains were in store, while on November 13th there were 3,670,504 bushels and on November 22nd, there were 3,553,604 bushels stored up."

Recipes For This Week

(By Betty Barclay)

DATE AND NOT ROLL

1 1/2 cups sugar.
1/2 cup thin cream.
1 cup dates, pitted and chopped.
1/2 cup nut meats, chopped.

Cook sugar and cream together until a little dropped in cold water. Add nut meats. Continue beating until candy is firm enough to make into a roll about one and one-half inches across. Wrap in a wet cloth and leave until cold. Remove cloth and cut crosswise in slices.

APPLE AND ORANGE SALAD

Peel and slice oranges, rejecting all white membrane. Cut wedge-shaped slices from red apples, without paring. Arrange on lettuce-covered salad plates, using alternate slices of orange and apple.

GRAPEFRUIT SALAD

Peel oranges and grapefruit and divide into segments, rejecting all white skin. Arrange a circle of orange segments on a lettuce-covered salad plate and fill centre with grapefruit segments.

Increased Hog Production

At a meeting of the Alberta Swine Breeders' Association the other day, S. G. Carlyle, livestock commissioner, remarked that present conditions in Western Canada pointed to a 100 per cent increase in hog production next spring.

Pay For Postion

In some places where tips are abundant, the employee pays the employer for the right to work for him, declared a witness during a recent hearing before the ministry of labor commission in London.

SUNDAY SCHOOL LESSON

JANUARY 25

JESUS TEMPTED

Golden Text: "In that He, Himself, hath suffered being tempted, He is able to succor them that are tempted."—Hebrews 2:18.

Lesson: Luke 8:21 to 4:30.

Devotional Reading: Romans 8:21-39.

Explanations and Comments

The Nature Of Christ's Temptations, verses 1, 2.—Yielding to the control of the Holy Spirit which had come to Him in a special way at His baptism, Jesus went from the Jordan into the neighboring wilderness, that He might there meditate undisturbed upon the work God had given Him to do. As the story is told in Mark, Jesus seems to have waged His great struggle throughout His wilderness sojourn, but as it is told in Matthew and Luke, the specific temptations seem to have come at the end of the period.

The Temptation To Free Himself From The Limitations Of His Humanity, verses 3, 4.—During a long period Jesus had been fasting, and when He was hungry the devil said unto Him, "If Thou art the Son of God, command that this stone be turned into bread." The word "if" may be taken in the sense of "since." Since you have the power of God, why not make use of it for yourself? The question which Jesus had to settle was, should He for His personal relief use power which was given Him for the sake of His kingdom, or should He trust His Father and accept whatever sufferings His Father might send? His answer was, Thou shalt trust.

The Temptation To Establish an Earthly Kingdom, verses 5-8.—The Jews were chiding under the Roman yoke. They expected a Messiah, who would free them from Rome, and establish an earthly kingdom greater than that of their father David. What might Jesus not accomplish if He yielded to their expectations and established an earthly kingdom? All His countrymen would rally to His side if He adopted the role of a temporal Messiah; for such a Messiah they would sacrifice their lives freely and gladly. The devil showed Him all the kingdoms of this world in a moment of time. Jesus might have all this authority and the glory of them—if He would pay the price. Would it not be a quicker and easier road to travel than the road to Calvary? To seek temporal instead of eternal glory, to be a material instead of a spiritual kingdom, would be to ally Himself with the devil to worship before him.

The Temptation To Preempt Upon God's Call, verses 9-12.—Throughout His ministry Jesus was asked for a "sign" of His divine Sonship, but here at the beginning of His work He refused to give such a sign, and for a conspicuous reason. He was of His ownness with the Father. He would not make trial of Him to prove this to the world. "To leap untried from the pinnacle of the temple was to rival a mountain goat or a chameleon, but it had no connection at all with spiritual power and was no sign of distinction and ability to save men from their sins. To abandon the reason of men's actual need and work wonders, not for their relief but for mere display, was to trespass against the Father's love and to mistake the Father's intention."—Marcus Dods.

The Tempter Vanquished, verse 13.—When the devil had completed every temptation, he departed from Him for a season. "The moment that the obedience of the life was established, the natural man's settled into peace within him."—Phillips Brooks.

A Simple So Proven

Exponent Of Perpetual Motion

Inventor At Pacific Coast Thinks Invention Will Revolutionize Industry

The Vancouver Sun publishes, the following despatch from Prince George, B.C.:

"Prince George has now an exponent of perpetual motion in the person of Nicola Schmidt, a local engineer, who claims to have invented an engine operating by a mixture of water and air, which required the expenditure of no oil whatever. Mr. Schmidt claims that his engine will occupy about one-third as much space and weighs about one-half as much as the most efficient power plant, and that once it is installed there will be no further expense whatever. Mr. Schmidt is highly secretive as to the principle upon which his engine operates, but his business manager, H. A. Hurtubise, announces that the engine will revolutionize industry."

Saskatchewan Resources

National Resources Office For Northern Saskatchewan Located At Hudson Bay Junction

One of the three natural resources offices in Northern Saskatchewan has been located in Hudson Bay Junction. E. J. Marshall, who has been in charge of the Porcupine reserve for some years, has moved to the Junction, and has been promoted to district superintendent. His district extends from the Manitoba boundary to range 12, and from township 35 on the south to the Churchill River. All matters relating to the forests, lands, mines and fisheries in this part of the province are to be administered from the local office.

HILLCREST HAPPENINGS

The local Scots had a right royal time in the Union hall here on Friday night last, in celebration of the anniversary of the immortal bard, Robbie Burns.

J. M. Mackie, president of the Hillcrest Galleries Ltd., is paying us his annual visit.

G. E. Cruickshank, M.L.A., left by auto on Monday for Edmonton, to take up his duties in the legislature as a member for this district. Mrs. Cruickshank accompanied him.

R. G. Drinnan is visiting old friends here.

J. Shevels conducted service in the United church here on Sunday evening. Rev. J. Wood, the pastor, will be in charge next Sunday.

Mrs. G. Rose is visiting her brother in Calgary.

COWLEY HAPPENINGS

Corbin 4, Cubs 2. Teams: Corbin—Watson, Picard, Kinesky, Morris, Atkinson, Richards, Andreaschuk, Patterson, Morency and Thomason. Corbin—Uphill, Gardiner, J. Joyce, Selesky, C. Joyce, McVey, Korman and Clifford.

COWLEY HAPPENINGS

Little Billie Black is recovering from a mild case of measles.

A supper and social entertainment was held in the United church on Friday night.

Mrs. George Porter spent a few days this week in Macleod, visiting her daughter Kathleen.

Miss Aileen Cooper journeyed to Calgary on the Greyhound bus on Friday for a few days' visit with her parents.

Mr. and Mrs. Patton, of Lundbreck, were Friday visitors to Pincher Creek.

Mrs. Archie Swart has returned from a few days' visit to Lethbridge.

A return hockey game was played at Lee Lake on Sunday last, between Burnis and Cowley teams, which ended in a score of 4-0 in favor of Burnis.

On Thursday afternoon, the advent of her tenth birthday, Sylvia Murphy entertained a house full of young friends.

Miss Nellie McWilliams, of the Christie flat, entertained the Ladies' Bridge Club on Tuesday night of this week.

M. A. Murphy is a present Calgary visitor.

Miss Bertha Kaye has returned home from Blairmore.

The Oddfellows' hall has been fitted up for playing at curling and badminton.

Every wise man apologizes frequently to his wife—but he seldom knows what for.

There is as much capital in the country as ever, but it is not working—Vice-Pres. Curtis.

Spoke you heard about the Scot named Vincent, who called himself Vin so that he could save the cent.

Billy Royle, who had been confined to his home for some days, through illness, is able to be around this week.

The Imperial Bank has taken over the Western Security Bank with its thirty branches in southern Saskatchewan.

Mrs. Fannett, wife of Dr. Fannett, formerly of Coleman, has been elected president of the Women's Institute at Macleod.

H. D. Gerry, of Cowley, has opened a cash-and-carry meat market at Fernie, with Fred McKenzie, of Blairmore, in charge.

Miss Nina Passmore leaves tonight for Kamloops, B.C., where she will take a postgraduate course at the Tranquille Sanatorium.

Ed. Royle, Harry Blake, T. Hadwell and W. Patterson attended the Cricket League meeting at Hillcrest on Friday night last.

Mr. and Mrs. Paul Kuschel, of Warner, passed through Blairmore last week, enroute to California, where they are to spend the winter.

Editor's Small Son: "Mother, why hasn't Daddy got much hair?"

Mother: "Because he thinks a lot, darling."

Boy: "Then why have you got so much, mother?"

Mother: (Pause): "Go on with your breakfast."

An Irish preacher, wishing to show to his congregation into what depth a prodigal son sinks, gave the following illustration—

"A lad left home with good intentions, but evidently got into bad company. He eventually had to pawn his overcoat in order to raise money to keep himself. However, his coat and waistcoat had to go the same way.

Again he needed money, and he was forced to pawn his trousers, and like wise his shirt and his vest. Then he came to himself."

Here and There

592

Arboretus protection in Canada during 1929 set up a new high record, according to the finally revised figures of the Bureau of Statistics. Chipmunks in 1929 amounted to 306,055 tons, valued at \$13,172,581, 12% increase of 12% in quantity and 17% in value as compared with the previous year. The average value received by the operators was \$43.44 per ton, compared with \$41.18 the previous year.

Nipigon trout, known all over the continent as the gamiest of game fish, are coming into the spotlight again according to reports from the famous Ontario resort where the annual contest for the largest speckled trout is now in full swing and will continue until September 21. The best entry to date is a 54-lb. fish, measuring 22 inches in length and 14 in girth taken with a spinster with fly, on a 54-foot rod, by Edmund Slater, of Paterson, N. J., July 29.

East and West, Orient and Occident, will meet in the British Empire 7-0's competition, one of the most important of the new features to be introduced at this year's Highland Games and Scottish Music Festival to be held at Banff at the end of August. Pipe-Majors John Clark and E. L. Collins of the Royal Scots Regiment of Scotland, of which Princess Mary is Colonel-in-Chief, will come from the British Isles, while Pipe-Major W. C. MacKie of the Scottish Company of volunteers is on his way to Banff from Hong-Kong.

Prospects for increased earnings during the fall months are good and directors of the Canadian Pacific Railway have no intention of reducing the dividend, said E. W. Beatty, chairman and president of the company, recently in reply to rumors that the dividend might be cut.

Nowadays the world moves on rubber and this does not apply to automobiles alone. According to a recent return of the Canadian Government the people of Nigeria in 1929 bought 306 pairs of shoes with rubber soles from Canada. Barbados took 2,029 pairs and Trinidad 1,155 pairs. In June the export of Canadian automobile tires exceeded \$1,000,000 in value.

Canadian farmers are now producing all the fine tobacco required by Canadian manufacturers, according to a statement just issued by the Dominion Department of Agriculture which also states that the tobacco is of better quality than that usually imported. Canadian tobacco has also become a factor in the British tobacco market.

An increase of 58% in motor tourist traffic from the United States to New Brunswick is shown in statistics for the 1929 season up to July 31 as compared with the same period last year, according to figures issued by the provincial Government Bureau of Information and Tourist Travel from returns from Canadian Customs collectors at the 24 ports of entry along the International Boundary.

It is not generally known that the Prairie Provinces—Manitoba, Saskatchewan and Alberta—contain important commercial fisheries. In 1929 the commercial value of fish caught in these provinces exceeded \$4,000,000.

Herman Trele, of Wembley, Alberta, former wheat and oats king, won first prizes at the Regina Exhibition for his Marquis and Howard wheats. William Dymkowski, of Laura, Sask., was second in the Marquis class and E. Thompson of Pathole, Sask., came just behind Trele in the Howard class.

Twenty New Zealand athletes and twenty athletes from Australia have already arrived at Hamilton for the Empire Games under the chairmanship of E. W. Beatty, chairman and president of the Canadian Pacific Railway. There will be representatives from Great Britain, South Africa and nearly every province of Canada at the Games which are scheduled to be held in the Ontario city next month.

Doubling the population of Canada for the day, a force of more than six thousand members of the Canadian Pacific Recreation clubs of Toronto and Trenton set a new record for picnic attendances when the annual function was held there recently. The freedom of the city was conferred on the visitors for sports the Great Cup, trophy of the football match between the Toronto and Trenton clubs, was won for the fourth year in succession by Trenton.

With an aggregate of 133 years of unbroken service, three Canadian Pacific engineers from the Ontario district retired on pension recently. They are John Douglas, Thomas Bennett and John G. Moore and all have unblemished records. Bennett's service goes back to 1853, Douglas and Moore go back to 1855 and 1859 respectively.

The Toronto Industrial Commission announces that between January 1 and June 30, 15 new industries have come to Toronto, with which the commission has cooperated. Of these, 11 had their origin in the United States and 4 originated in other parts of Canada. The list of these new industries includes a number of outstanding companies whose entrance into the assembling and manufacturing field in Toronto means an important growth and development in the city's industrial life.

WORLD HAPPENINGS BRIEFLY TOLD

Victoria, B.C. residents, by a 1,713 majority, voted against sale of beer by the glass.

British Columbia is planning a celebration for her diamond anniversary on July 20.

A series of mysterious disappearances of boats in southeastern Alaska is being investigated.

Mr. Justice Hyndman, of the Alberta Supreme Court has resigned to accept an appointment as head of the pensions appeal board at Ottawa.

The King lost one of his best friends in the death at London, England, of Sir Charles Cuthbert, equerry to His Majesty since 1892.

President Hoover may go to Ottawa to lay the cornerstone of the new legislation chancery building which the U.S. Government proposes to build.

Sir Francis Oswald Lindley, veteran of the British diplomatic service and ambassador to Portugal since 1920, is appointed ambassador to Japan.

World wheat production for 1930, exclusive of Russia and China, was estimated by the U.S. Department of Agriculture at 3,778,000,000 bushels, compared with 3,498,000,000 bushels in 1929, an increase of 8 per cent. A 17-year-old boy was reported to have found at Larklinville, Australia, a gold nugget weighing 78 lbs., and worth \$5,000 (about \$26,786). The nugget was said to measure 26 inches by 12 by 3.

The importance of a direct outlet to the Pacific Coast for the Peace River country was stressed by Herman Trelle, king of wheat growers, addressing the On-to-the-Peace Association at Vancouver.

The "Nautilus," the submarine in which Sir George Wilkins expects to reach the North Pole, has been taken from the Philadelphia shipyards to Camden, N.J. Sir George expects to start his trip the second week in March.

Is Cancer Caused By Cooked Food

Free Use Of Raw Fruits and Vegetables Is Recommended
(By Dr. Julian P. Thomas.)

Some forty years ago, then a professor of skin diseases in a southern medical college, I made some startling discoveries which enabled me to kill external cancer. Like many doctors making a specialty of cancer and other such troubles, I finally developed what was believed to be cancer in the stomach; and as I knew that there was no ordinary way to remove such a condition I began to use natural, uncooked foods such as fruits, nuts, fresh vegetables, etc., which apparently eradicated the trouble entirely. Many people heard of this strange experiment and, since then, many thousands of others have been benefited by my experience.

Today, deaths from cancer are increasing so fast that every man, woman and child is in danger, so that the discoveries I made years ago have become of great importance. All you have to do is to escape death from other causes long enough, and cancer is almost sure to get you. In fact, cancer and the sickness of premature old age are very closely connected. For as long as the tissues can be kept young and healthy, cancer cannot develop in or on it. But when the body in general, or in part, becomes lowered in vitality, then look out.

Women are more prone to cancer than men, for it is said that 1 out of every 8 women, and 1 out of every 12 men, who reach the age of 40, develop cancer.

B.C. Coal

Oven Tests For B.C. Coal To Be Made At Winnipeg

Arrangements for oven tests of British Columbia coal by the Winnipeg Electric Company have been completed by Hon. W. A. Gordon, Dominion Minister of Mines, it is announced by Edward Anderson, K.C., president of the Winnipeg firm. The arrangement is in accordance with the policy of the Department of Mines, to investigate and test the various coals of the western provinces to determine their suitability for various purposes.

Winnipeg Newspaper Union
Tatler
(By Eva A. Tingey.)

The King lost one of his best friends in the death at London, England, of Sir Charles Cuthbert, equerry to His Majesty since 1892.

The importance of a direct outlet to the Pacific Coast for the Peace River country was stressed by Herman Trelle, king of wheat growers, addressing the On-to-the-Peace Association at Vancouver.

The "Nautilus," the submarine in which Sir George Wilkins expects to reach the North Pole, has been taken from the Philadelphia shipyards to Camden, N.J. Sir George expects to start his trip the second week in March.

Some forty years ago, then a professor of skin diseases in a southern medical college, I made some startling discoveries which enabled me to kill external cancer. Like many doctors making a specialty of cancer and other such troubles, I finally developed what was believed to be cancer in the stomach; and as I knew that there was no ordinary way to remove such a condition I began to use natural, uncooked foods such as fruits, nuts, fresh vegetables, etc., which apparently eradicated the trouble entirely. Many people heard of this strange experiment and, since then, many thousands of others have been benefited by my experience.

Today, deaths from cancer are increasing so fast that every man, woman and child is in danger, so that the discoveries I made years ago have become of great importance. All you have to do is to escape death from other causes long enough, and cancer is almost sure to get you. In fact, cancer and the sickness of premature old age are very closely connected. For as long as the tissues can be kept young and healthy, cancer cannot develop in or on it. But when the body in general, or in part, becomes lowered in vitality, then look out.

Women are more prone to cancer than men, for it is said that 1 out of every 8 women, and 1 out of every 12 men, who reach the age of 40, develop cancer.

Stinking Smut

By H. G. L. Strange, Director, Research Department, Scarle Grain Co., Ltd., Winnipeg, Man.

Smut causes the farmer serious losses. Grain that even slightly smutted suffers a deduction of from 5 to 5 cents a bushel, some years more, and a much greater loss is caused by smut because of the plants that are destroyed in the field.

Crops grown from smut can easily be grown and these serious losses avoided.

A little time and care—a very little money, is all that is required.

The following methods, if carefully followed, should ensure a crop free from stinking smut:

1. If grain is unstably smutted it should not be used for seed if it can possibly be avoided. It will be found to be far better to dispose of the smutted grain and to purchase seed that is free from smut. (Good pure pedigreed seed never was as cheap as it is at the present time.)

2. Should the seed be free from smut and from smut balls then either Formalin or Copper Carbonate can be used for treating wheat, but Formalin only should be used for oats and barley.

3. Copper carbonate cannot harm the germination of the wheat, and seed can be treated during the winter or at any time before sowing. But Copper Carbonate costs more than Formalin and should too much be used, then sometimes when the air is damp the feeding gears on the seed mill may become clogged and the gear rods may twist and break.

Approximately two ounces, by weight, of Copper Carbonate to each bushel of wheat is the amount, but it must be very thoroughly mixed so that each kernel of seed is uniformly coated. A proper Copper Carbonate Treating Machine is the best method of mixing.

Wheat treated with Copper Carbonate properly in this manner can be expected to produce a crop free from smut provided the seed treated was practically free from smut and quite free from smut balls.

4. Formalin is cheaper than Copper Carbonate but it must be used at a few hours before the grain is sown, and most important of all it must be used of exactly the right strength, no more, no less. Both the Formalin and the water must be measured accurately so as to obtain this exact strength.

Should the solution be even a little too weak, then the smut spores are not all destroyed. Should the solution be a little too strong, then some of the germinating power of the seed will certainly be harmed and so bushels to the acre will be lost in the field.

The correct strength to use is one Imperial pint of Formalin to 40 Imperial gallons of water, or one pound of Formalin to 30 Imperial gallons of water is the same proportion.

Most farmers use pails for treating their seed with formalin. Most pails hold either 12, 14 or 16 quarts.

For the 12 quart size one and one half ounces, by measure, of Formalin should be used.

For the 14 quart size one and three quarter ounces, should be used.

The 16 quart pail should receive two ounces of Formalin.

The size of the bucket can easily be determined by weighing. The water in a 12 quart bucket weighs 30 pounds. In a 14 quart bucket it weighs 34 pounds, and in a 16 quart bucket 40 pounds.

Note carefully that the ounces mentioned for Formalin are ounces by measure and not ounces by weight. There are twenty fluid ounces by measure in one Imperial pint.

To measure Formalin accurately a two or three ounce bottle or graduated measure or bottle marked with ounces and parts of ounces, can be purchased for a few cents from any drug store, or it is possible that a proper metal measuring cup may be obtained free from those selling Formalin.

5. The Formalin sprinkling method is the one usually used by farmers. It is quick and efficient if care is taken.

Put about 25 bushels, or less of grain in the front end of a clean wagon box, which is slightly tilted to the rear.

Throw on the grain a bucket or two of the correct solution of Formalin and water and shovel the grain over and over so as to mix the solution and shovel over again until the grain is uniformly moistened. This will take about one gallon of solution to each bushel of grain.

By placing a boiler, or bucket on the ground at the end of the wagon

Cancer, Piles, and Other Chronic Afflictions

Royal Bank Annual Meeting

At the annual meeting of the Royal Bank of Canada, the President, Sir Herbert Brown, referred to the world-wide depression, cited credit conditions as the chief controlling factor and reviewed developments in and prospects for Canadian industries.

He said that while the results of the Imperial Conference are naturally disappointing to the overseas Dominion, it was much to be expected that a ready-made proposal would be acceptable to Great Britain.

He treated with the outside world in relation to the outside world, but proposals put forward by a principle rather than a principle, and this principle is one which should command serious consideration of the price level to gold support and central bank policy.

Sir Herbert dealt with the principal industry of Canada, making a number of constructive suggestions. He strongly advocated that the west must be less dependent on the production of grain, substituting mixed farming. He approved of the suggestion of a credit corporation to assist the farmers to purchase cattle, sheep and horses.

He advocated the increased use of fertilizer as a means of ensuring the world depression and the relation of the price level to gold support and central bank policy.

box, a lot of the solution that runs down can be saved and used on the grain again.

When the grain is evenly moistened, it should be shoveled into a heap and covered with clean sacks, which have been dipped in the Formalin solution, or with clean horse blankets, so as to allow the gas to spread through the grain.

The grain will be ready to seed in a few hours, or if this work is done at night after field work, then the grain will be ready by the next morning.

6. The above methods are for treating clean seed which is free from smut and smut balls.

But if for any reason grain that is smutty must be used for seed, then the above methods are not sufficient, to insure a clean crop and the following method should be used. This is called the—Immersion Method—Into a barrel or a half barrel put about one bushel of the grain to be treated, and pour on to this sufficient solution to have 3 or 4 inches of liquid on the top of the grain. Stir the grain thoroughly with a stick, until it will be found that the smut balls float to the top of the liquid. These smut balls should be carefully skimmed off.

Next the liquid should be poured off the seed into another barrel or another half barrel, then the grain should be dumped into a pile on the floor and when sufficient has been treated for seeding purposes it should be covered with clean sacks or blankets and allowed to stand for several hours.

The disadvantage of this method is that it is slow and not very convenient. A machine, however, has been devised which is called an Immersion Pickler which will treat grain by the Immersion Method quickly and efficiently.

Man Keeps English Doctors Supplied With Russian Skulls

The claim that he is the only man in the world in his particular line of business is made by Herr Hugo Brech, a Russian skull dealer.

There is a steady demand for Russian skulls in good condition," Herr Brech said. "Because of the hard fare on which Russian peasants live their teeth are in very good condition, and the skulls are therefore invaluable for dental demonstrations. My firm collects the skulls in Russia, and it is my job to sell them to doctors. A good skull brings in about \$90.

A test made by government scientists showed that 7,000 pounds of oil dumped from old burning ships in the high seas would drift 90 miles and cover the water to the extent of 900 square miles.

increase the yield of wheat by eight to ten bushels per acre. The development of the Canadian livestock industry has not kept pace with general increase in production and we are actually importing large amounts of butter and meat. In the meantime our exports of animal products have actually decreased. In his opinion statistics clearly point to an opportunity for greater profit by diversification.

In conclusion, Sir Herbert said: "The stability of our great industries and the growing strength of financial institutions during the past year constitutes a record which we have all readily acknowledged. In his opinion statistics clearly point to an opportunity for greater profit by diversification.

JESUS THE GREAT PHYSICIAN

Golden Text: "Surely He hath borne our griefs, and carried our sorrows."—Isaiah 53:4.
Lesson: Luke 4:31 to 5:39.
Devotional Reading: Isaiah 53:1-6.

Explanations and Comments

The Cure Of Peter's Wife's Mother, 4:38, 39.—Leaving the synagogue where He had preached and had refused to let them to touch Him, and went to the house of Peter to find all greatly alarmed over the high fever of Peter's mother-in-law. They appealed to Jesus for help, and not in vain, for He stood over her and rebuked the fever, and she was completely restored to health that she arose and ministered to them.

The Cure Of All Sorts of Conditions Of Afflictions, 4:40, 41.—The fame of Jesus spread, and friends of the sick brought them to Him, and were not disappointed, for He healed them all. How did He do it? We cannot explain it. Dear Brown does not partially. He aimed to secure the co-operation of the expectant hope and faith of the multitude of the sick. He worked in atmosphere of sympathy and faith. When He found Him in an atmosphere of sympathy, He could do there no mighty work. He added to that widely rendered impulse toward recovery the power of His own wise, loving personality. And somehow these energies availed for the recovery of many from their natural ills. "Violations of natural law?" Rather the addition of a higher force which altered the possibilities in that situation as men had sensed it.

Preaching and Healing To Galilee, 4:42-44.—When day came, Jesus went away to a lonely place for prayer (Mark 1:35), but the multitude followed Him, and sought to prevent His leaving them. "Must, preach the word of the Kingdom of God to the other cities also." He declared, "I have been sent." Did the demand upon His healing power present a very real temptation to Jesus? Did His sympathetic heart make Him years to give all His time to the sick and afflicted? May He not have wrenched in His strength from the patient from the joy of healing to the far greater work of preaching, the work for which He was sent? The proclamation of the good tidings of the Kingdom of God was of infinitely greater importance than the healing of men's bodies, and strengthened by prayer, Jesus left His clamorous crowd from Capernaum and went about Galilee, preaching in the synagogues.

The Cure Of A Leper, 5:12-14.—One day a leper came, and, falling on his face before Jesus in reverence, cried, "Lord, if Thou wilt, Thou canst make me clean." With infinite compassion Jesus touched him, and the leper was healed. "I will; be thou made clean," and immediately he leaped and gloried.

In a recent month Spain exported nearly 20,000,000 pounds of olive oil.

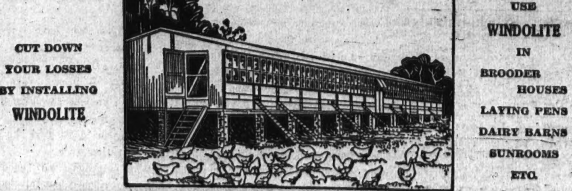

Make Your Windows Pay

Invest in WINDOLITE Windows and you will be repaid a hundredfold in the health of your Poultry and Live Stock

WINDOLITE

THE ORIGINAL GLASS SUBSTITUTE
MADE IN ENGLAND SINCE 1911 ON ORIGINAL PATENTS

This unbreakable glass substitute is light and flexible, easy to cut and fit, will withstand extreme changes in temperature, keeps out cold and wet, but allows the full sunlight to enter, including the health-giving Ultra-Violet Rays, which do not penetrate ordinary glass.

Canadian breeders of poultry and livestock are finding Windolite a most satisfactory and profitable investment. Young chickens and turkeys are entirely free from leg weakness and disease and will thrive in confinement under Windolite. Windolite comes in rolls any length, but 36 inches wide only.

CHAPTER IX.—Continued.

"We've had dreadful bills these last two years, you know. I was so wretched before Nick arrived that I had help with the housework all the time, and the nurse stayed six weeks instead of three. Nick just won't scrimp at such a time; but the money melts away, and our old house always seems to need repairs. It's hard to save when you marry so young that there's no neat egg laid by for the emergencies that always come; and Nick's uncle left precious little beside the house. So I'll take your gift, Uncle Sam, and think of you gratefully whenever I spend a dollar of it."

She kissed him again, and Simon said, as she arose: "No need of getting so stirred up over a little matter of a hundred dollars. Now, dearie, you must go to bed. Maybe we better take the babies on a picnic tomorrow, if their daddy ain't got to be on hand. Seems if I'd miss the boy full as much as they will."

Later, when Gay stood at her window, ready for the night, she looked up at the stars, and wondered if Nick were looking at them, too.

"Good-night, dearest," she said, as if her voice could carry across the miles. "I hope—I do hope you're missing me a little."

And at that very minute Nick was bending eagerly above a road map, a head covered by wonderful, rippling hair, close to his own.

"It'll be a bully trip," he said, raising his eyes to meet the very blue and innocent ones beside him. "We'll come back through Anton Bay. The view from those hills is glorious. Gosh! I'll seem good to see something besides Bakerville or State Line!"

He arose, and, accompanied by a

Restless CHILDREN

CHILDREN will fret, often for no apparent reason. But there's always Castoria! Harmless as the recipe on the wrapper, mild and bland as it tastes. But its gentle action soothes a youngster more surely than a powerful medicine.

It's the beauty of this special children's remedy! It may be given the tiniest infant—as often as there is need! In cases of colic, diarrhea or similar disturbance, it is invaluable. A cat-tail tongue can't just a few drops to ward off constipation; so does any suggestion of bad breath. Whenever children don't eat well, don't rest well, or have any little upset—this pure vegetable preparation is usually all that's needed.

**Fletcher's
CASTORIA**

W. N. U. 1974

sleep Daddy'll be here. You take good care o' Mother now, and don't let nothin' happen to her, will yer?"

"Nope," promised Sonny, and bravely swallowed a sob as the old man turned to put his cheek lovingly against the baby's, and to kiss Gay.

"You don't by no means feel nervous here alone, do you?" he asked anxiously.

"It had been a beautiful day, but now the sun was behind a cloud, and a rumble of distant thunder stirred the air."

"No," Gay answered, "but I don't like your starting off if a shower's coming."

"It ain't aimed in our direction," said Simon, studying the heavens, "but if it overtakes us we'll get shelter somewhere. You don't need to worry about us. There's Julia Nipper over on the Halliday's back porch. You tell her to come over here if the storm gets bad. She'll be company anyhow; and we'd ought to start right back. As 'tis we won't get home much afore dark."

"Then you mustn't let her see, Uncle Sam; but I haven't thanked you for our visit, or said half enough about your wonderful gift. Next time you come to Bakerville I shall look like a bride!"

"You look like one now," said Simon, "with yer eyes shinin' like that. Well, dearie, I must be gettin' on. Don't hardly know what Mrs. Bemis an' me'll do without you. Give my love to Nick, and tell him his property ain't deteriorated any since I borrowed it."

Gay laughed.

"I should say it hadn't! I feel like a new woman altogether, and the babies have never been so rosy."

As the car started she lifted her baby high, while Sonny clinging to her skirt, waved a farewell. Simon craned his neck to watch the picture till the car turned into Main Street.

The clouds had darkened suddenly, and the house seemed gloomy as Gay and the children went within. She switched on a light for cheer, and looked about at her own beloved domain.

"Nick's done pretty well to keep things as neat as this," she commented, as she went to the kitchen to put away the milk and eggs. The remnants of a hasty breakfast lay in the sink, but except for the inevitable accumulation of dust, things were not hopeless. "In an hour I could do wonders," Gay mused, "but unless these clouds lift it's too dark to see, and I'd be rightfully tired by bedtime if I do too much. I'll just make the beds, and later on slick up the kitchen. The babies will be ready to turn early. I wish" (with an anxious glance at the lowering sky). "I do wish Nick could come before dark."

She had started upstairs, the baby in her arms, when a voice at the door arrested her, and she turned to see Julie Nipper, the cap adorning her bobbed hair, slightly awry.

"I see you come home," she announced, stepping inside, "and thought maybe I could help. I'll keep one eye out the window and if Mrs. Halliday gets back I'll cut an' run through that hole in the hedge, an' he'll never know I left the house. Think o' her not lettin' me off when she's gone all day—and him not home either! And Sunday! I'd never stay there a minute except the pay's so good, and sometimes she gives me her old clothes. Say! that lightning's somethin' fierce!"

(To Be Continued.)

Complete in itself, Mother Graves' Worm Exterminator does not require the assistance of any other medicine to make it effective. It does not fail to do its work.

In quarries where beryl is found, workmen say that this mineral is a good prophetic of weather changes, becoming deeper in color as humidity increases.

Australia's iron and steel production is increasing.

Canadian Newspaper

Has Long Record

Brockville Recorder Celebrates Its 110th Anniversary

Started on January 16, 1821, by Chaucer Beach, an itinerant printer, the Brockville Recorder, a weekly newspaper, recently celebrated its hundred and tenth anniversary without so far as is known, having missed a week's publication during that long period.

The newspaper was established by members of the Busell family, acting in conjunction with Beach, as a protest against the Family Compact in Upper Canada, and Andrew N. Burt, later master in chancery at Toronto, who, as a law student, wrote the inaugural address in the first issue of 110 years ago, stamped the publication in the strongest terms as a reform journal. It has since remained a supporter of Liberal policies and principle.

Always on Hand

To be always kept on hand is a sure sign of appreciation of a medicinal product. Baby's Own Tablets are the enviable distinction in thousands of homes, one of one of Canada to the other. Mrs. Ernest Gallant, Shediac, N.B., is one of the young mothers who appreciate the Tablets. She writes: "I have used them for my little boy for the past two years and would not be without them. They quickly banish constipation and colic and keep him happy."

Baby's Own Tablets are a mild but thorough laxative. They regulate the stomach and bowels; relieve indigestion, flatulence, colds and promote healthy sleep. They are sold by mail at 25 cents a box from Dr. Williams' Medicine Co., Brockville, Ont.

Recipes For This Week

(By Betty Barclay)

BUTTERMILK BISCUITS

2 cups special cake flour, sifted.
1 teaspoon baking powder.
1/2 teaspoon salt.
1/2 cup butter, softened.
1/2 cup buttermilk or sour milk.
1/2 pound pimento cheese.

1/2 cups butter, softened.
1/2 cup soda, and salt, and sift again. Cut in 2 tablespoons shortening. Add buttermilk gradually until soft dough is formed. Roll 1/4 inch thick on slightly floured board. Cut with floured biscuit cutter. Place in greased pan. Melt cheese and 4 tablespoons butter and pour mixture over biscuits. Bake in hot oven (425 degrees Fahrenheit), 12 to 15 minutes. Makes eighteen 1 1/2 inch biscuits.

ORANGE TAPIOCA PUDDING
1/4 cup quick cooking tapioca.
2 cups milk.
2 eggs.
1/2 cup sugar.
1/2 teaspoon salt.
3 oranges.
2 tablespoons sugar.

Put milk and tapioca in double boiler; cook fifteen minutes; then add eggs, beaten with salt and one-half cup sugar. Pare oranges; remove sections from membranes; put in bottom of baking-dish; sprinkle with two tablespoons sugar; pour tapioca mixture over oranges, and bake in moderate oven until custard is firm.

Toothache and neuralgia are instantly relieved with Douglas' Egyptian Liniment. A quick, sure remedy. Also recommended for burns, sprains, sores and inflammation.

Canadian Indian Education

In the Dominion of Canada there are now 350 central Indian education activity—73 residential and 272 day schools—under the Department of Indian Affairs.

This much can be said for these depressed times, says the Ottawa Journal: "The clerk doesn't bend and haw about selling you a necktie out of the window."

Advice to sportive youth: Remember, my son, many a man has live or worse because he sowed nothing but wild oats."

A Law-Abiding Town

Nothing Exciting Ever Happens in Lousburg, Nova Scotia.

That Lousburg, Nova Scotia, is one of the most peaceful and law-abiding on the continent may be seen from the following facts:

During the year 1930 there was not a single arrest for drunkenness, theft, assault or any similar charge.

It was not necessary to call one session of the police court during the year.

Although automobile traffic showed a marked increase over other years, no accident resulting in death or injury to any person occurred.

During the past three years no arrests have been made for drunkenness.

No citizen of Lousburg within the last ten years has served a sentence in the county jail or appeared in either the county or supreme courts on a criminal charge.

When the Nova Scotia Temperance Act was in force, Lousburg had no government vendor and no attempt was ever made to appoint one.

Under the present government control act, no liquor store has been opened in Lousburg. When the plebiscite on the liquor question was taken, the town voted two to one against government control.

Queer Lake In Italy

Mysterious Motions Tally With Activities Of Volcanos

Considerable curiosity has been aroused in Italy by the phenomenal behavior of a lake situated some 20 miles north of Rome at Leprignano, the lake being swallowed up by the earth for over two hours and then rising to its normal level. The volcanic character of the lake had long been noticed, and it has been discovered that its mysterious motions tally with certain activity of Vesuvius over 300 miles to the south. Data is being collected by which this lake may be used as a signal of approaching Vesuvius eruptions. Preceded by a brief earthquake shock, also experienced at Vesuvius, the waters of the lake began to fume and boil. The water sunk into the earth through volcanic fissures, and after the bottom had been dry for a little over two hours, the lake refilled with turbulent hot water and sulphuric vapors. The waters of the lake covered some ten acres.

Acids In Stomach

Cause Indigestion

Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, sourness, burning, gas, bloating, nausea, etc., are due to an excess of hydrochloric acid in the stomach. The delicate stomach lining is irritated and is delayed in the food source, causing the disagreeable symptoms which every stomach sufferer knows so well.

Artificially sweetened is not needed in such cases and may do real harm. Try Laxative and Alleviate acid and stand right after eating. This sweetens the stomach, prevents the formation of excess acid and there is no sourness, gas or pain. Instantaneous Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, laxative, and is the most efficient form of neutralizer of stomach's purposes. It is used by thousands of people who enjoy their meals with no fear of indigestion.

A trans-Atlantic liner being constructed at Belfast, Ireland, will carry 1,500 passengers.

FEEL MEAN?

Don't be helpless when you suddenly get a headache. Reach in your pocket for immediate relief. If you haven't any Aspirin with you, get some at the first drugstore you come to.

Take a tablet or two and be rid of the pain. Take promptly. Nothing is gained by waiting to see if the pain will leave of its own accord. It may grow worse! Why postpone relief?

There are many times when Aspirin tablets will "save the day." They will always ease a throbbing head. Quiet a grumbling tooth. Relieve nagging pains of neuralgia or neuritis. Or check a sudden cold. Even rheumatism has lost its terrors for those who have learned to depend on these tablets.

Gargle with Aspirin tablets at the first suspicion of sore throat, and reduce infection. Look for Aspirin on the box—and the word Genuine in red.

Genuine Aspirin tablets do not depress the heart.

Acute Gastritis

Gets a Knockout

Mr. Arthur E. Root, of West Croft, Nova Scotia, writes: "Discharged from His Majesty's Forces with acute gastritis, I was left with a very weak inside, and those who suffer similarly know how very careful one must be in what they eat and what medicines they take. Constipation and indigestion generally commenced my attacks; headaches and bad breath naturally followed; but to-day I am able to eat anything I fancy. My secret I can honestly recommend, lies in your pills." Take Carter's Little Liver Pills. All druggists 25¢ and 75¢ red rib.

Little Helps For This Week

"Lord, increase our faith."—Luke xviii.

The willows swell, the winds are high. Clouds overcast my wintry sky. Out of the depths to Thee I call. My fears are great, my strength is small.

O Lord! the pilot's part perform. Aid guard and guide me through the storm. Defend me from each threatening ill. Releive the waves, say, "Peace, be still!"

—William Cowper.

If, like Peter, we fix our eyes on Jesus, we too may walk triumphantly over the swelling waves of disaster, and unfettered amid the rising winds of doubt; but if we turn our eyes away from Him in whom we have believed, if, as is so easy to do, and as we are so much tempted to do, we look rather at the power of those terrible and destructive elements than at Him who can help and save, then we too shall inevitably sink.

—Frederic W. Farrar.

War Debts Cause Trouble

Aftermath of Great War Retards International Trade

Time, the great healer, will remedy many ills, but the financial aftermath of the Great War will not cease to check and retard international trade relations if the nations do not take the initiative of removing or alleviating the difficulties, declared Senator F. L. Belque, president of the Banque Canadienne Nationale, in delivering his annual address to the shareholders of that institution at Montreal.

"It seems beyond question," declared the senator, "that alleviation of the war debts would be a practical and most constructive contribution to a resumption of normal economic activity throughout the world."

Potato banks that spend the winter underground take "anti-freeze" precautions, by getting rid of one-third their weight in water, which otherwise would freeze and burst the body cells.

Money talks—but to the Spend-thrift it says only, "Goodbye."

Take Precautions

Potato banks that spend the winter underground take "anti-freeze" precautions, by getting rid of one-third their weight in water, which otherwise would freeze and burst the body cells.

Money talks—but to the Spend-thrift it says only, "Goodbye."

FEEL MEAN?

Don't be helpless when you suddenly get a headache. Reach in your pocket for immediate relief. If you haven't any Aspirin with you, get some at the first drugstore you come to.

Take a tablet or two and be rid of the pain. Take promptly. Nothing is gained by waiting to see if the pain will leave of its own accord. It may grow worse! Why postpone relief?

There are many times when Aspirin tablets will "save the day." They will always ease a throbbing head. Quiet a grumbling tooth. Relieve nagging pains of neuralgia or neuritis. Or check a sudden cold. Even rheumatism has lost its terrors for those who have learned to depend on these tablets.

Gargle with Aspirin tablets at the first suspicion of sore throat, and reduce infection. Look for Aspirin on the box—and the word Genuine in red.

Genuine Aspirin tablets do not depress the heart.

NESTLÉ'S MILK

(UNSWEETENED)
EVAPORATED

Convenient! Economical!
SAVE yourself the bother of waiting for milk deliveries. Keep a supply of NESTLÉ'S on your shelf—use as needed.

NESTLÉ'S—World's Largest Producers and Sellers of Condensed and Evaporated Milk.

NESTLÉ'S MILK is sealed, airtight container—always pure and sweet when you open the tin.

Once again! Last week a Calgary man was accused of driving to the common danger at Bellevue and voluntarily went to the police barracks to settle the matter without any undue publicity. And after doing all necessary to expiate the "crime," publicity is given through the pages of the Lethbridge Herald. Again, we claim that punishment meted out through the avenues of justice should meet the ends desired, and that further punishment through the press is absolutely uncalled for in minor cases.

Turner Valley-Okotoks Imperials declared as a reason for their withdrawal from the South Alberta League that they did not wish to continue under the officiating of Harry Scott as referee. Harry Scott was unpopular as a referee in the Crows' Nest Pass and it is quite reasonable that our boys at Okotoks should have the same unchanged feeling towards him.

Local and General Items

The Alberta legislature opens at Edmonton today.

Mr. H. Meller-Langdale is a patient in Galt hospital at Lethbridge.

Fred Knapman returned to his school near Bow Island on Saturday last.

An exchange remarks: They call Edmonton the seat of the government; meaning, of course, the proper place to register your kicks.

Mrs. Roy Wood stopped over in Blairmore on Sunday, enroute to Regina, where Roy a few days previous suffered a severe electrical burn.

We understand that the town is being combed for suitable material to fill the office of mayor. Several names have been suggested and in all likelihood there will be a contest.

Another reflection on the Scot. A local woman says that a Scotchman is lacking in human interest, because he is limited to two possible loves only, his bible or his whiskey.

Local admirers of Miss Tina Thompson and her talented class of Fernie dancers are considering bringing them to Blairmore at some near future date to stage an entertainment.

A. F. Ewiner, K.C., of Edmonton, has been appointed as a judge of the trial, division of the supreme court of Alberta, succeeding Mr. Justice W. M. Walsh, who has been elevated to the appellate division to succeed Mr. Justice Hyndman.

The editor of an exchange reveals the secret of how he writes such strong editorials. He says he has the bible to the right of him, a dictionary to the left of him, a typewriter in front of him, the waste basket behind him, a chair under him and debts hanging over him.

Many local radio owners enjoyed listening in on the broadcast of the Oakland-Portland hockey game on Sunday night, in which George Bond, of Blairmore, and Joe McGoldrick, formerly of Lethbridge, were mentioned at every phase of the game. George appeared to have been turning in some excellent work in defense for Oakland and undoubtedly was the favorite with the fans.

District Deputy R. W. H. Pinkney installed the officers of Pincher Creek Lodge, B.P.O.E., on Monday night. The new officers are: P.E.R., J. Flaherty; E.R., R. S. Buchanan; loyal knight, H. Diamond; leading knight, H. Bosenberry; lecturing knight, J. J. Braniff; secretary, L. Taylor. Following the installation, refreshments were served. Mr. Pinkney continued on to Macleod on Tuesday evening and installed officers there.

It was no less an authority than the most famous and successful circus press agent in the world who said: "Say what you will, these small newspapers in the towns and villages are read with worshipful reverence and finality. They are the most wonderful mediums in the world with the most devout audiences. They read every word in every issue as an obligation to themselves. The advertising message immediately becomes a local fragment of news the moment it flows onto and into the page of your small locality newspaper."

In the Supreme Court at Calgary on Tuesday, Lilla Ruby Duncan, of Blairmore, obtained a decree of divorce nisi from her husband, Thomas Andrew Duncan, formerly of Calgary, but presently of Edmonton. This couple were married in 1925 and the wife was shortly afterwards deserted by the husband. The usual statutory grounds were proven, and the wife obtained a decree nisi to become absolute in three months, the custody of the one child of the marriage, maintenance in the sum of \$50 a month, and the costs of the action.

Joe Degroote returned to Kimberley on Monday morning, after a week's visit with friends here.

Mr. and Mrs. H. M. Bennett had the pleasure on Friday last of picking full-bloom pansies from their garden.

Momentum is the gradual move toward a dead stop. Stop advertising and you let your business run on momentum.

Why buy books, when for less than the price of one book, you can borrow your choice of almost 3,000 volumes at the public library?

Fred Thael, for a number of years well known practical tailor and clothing merchant of Lethbridge, has purchased the stock of the late J. W. Moreash at Macleod, and re-opened the store last week.

FIREWOOD—For Firewood, jack-pine and spruce blocks, cut in stove or bake-oven size, delivered promptly to any part of Blairmore at \$7.00 a load of more than a cord. Apply to Fred Green, corner Ninth Avenue and Stuart St.

Farmers living at Vita, Manitoba, have discovered a new mortgage lifter in the form of frogs' legs, for which they have found a good market. Their output is now rated in tons, and were it not for a prominent citizen of Blairmore, other tons might have been added.

An old and hardened criminal in the prison was asked recently what was the first step that led to his ruin, and he answered: "The first step that led to my downfall was cheating an editor out of two years' subscription. When I had done that, the devil had such a grip on me that I could not shake him off."

An Aberdonian, who had the misfortune to be shipwrecked, managed to get away with three survivors in one of the ship's boats. A storm arose, and the Aberdonian was asked to offer up a prayer for deliverance. "I'm sorry," he replied, "I cannot pray; but we'll have to do something religious. I'll tak' up a collection!"

The many friends of G. G. Coote, M.P., will learn with great sorrow of the death of his sister, Mrs. Tuck, in Oakville, Ontario, on Sunday afternoon last. Those left to mourn her loss are, her mother and two brothers, Charles and G. G., and two sisters, Helen (Mrs. Wiggins, of Toronto) and Marion, beside a host of friends in Oakville and other parts.

PUBLIC NOTICE

TO ALL MEN BY THESE PRESENTS:

Notice is hereby given that The National Slovak Society of United States of America, located at Pittsburgh, Pennsylvania, U.S.A., has appointed GEORGE KLESKEN, miner, of the municipality of Bellevue, Alberta, Dominion of Canada, chief agent of the Company in Canada, true and lawful attorney, to establish and maintain at Bellevue an agency of the said Company, to be called the chief agency thereof in Canada, and the said Company doth hereby declare that the agency to be established and maintained shall be the head office of the said Company in Canada, and the said Company doth hereby authorize its said attorney to receive process in all suits and proceedings against the Company, in any province in Canada in respect of any liabilities incurred by the said Company, therein, and also to receive from the Minister of Finance and Receiver General, and the Superintendent of Insurance, all notices which the law requires to be given, or which it is thought advisable to give. And the said Company doth further declare that service of process for or in respect of such liabilities and the receipt of such notices at said office or chief agency, or personally on or by said attorney at the municipality of Bellevue shall be legal and binding on the said Company, to all intents and purposes whatsoever.

In witness whereof the President and Secretary of the said Company have hereunto subscribed their names, and the said President has hereunto affixed the corporate seal of the said Company this 18th day of December, in the year of Our Lord one thousand, nine hundred and thirty. JOHN SIMKO, President. KAROL BELOHLAVEK, Sec. Pittsburgh, Pa. —Jan 15-4.
